Describe and evaluate the physical characteristics of the property, its integrity, and its significance within the context of the historic district (or individually for preliminary determinations of individual listings).

BUILT CIRCA 1905, THIS WAREHOUSE BUILDING REFLECTS THE TYPE OF STRUCTURES BUILT FOR BUSINESSES THAT WERE ESTABLISHED NEAR THE RAILROAD. IT HAS RETAINED ITS PRESSED METAL, "BRICK STYLE", SIDING AS WELL AS ITS FENESTRATION. IT HAS ALSO RETAINED ITS ORIGINAL PAINTED SIGN - "D.C. WINEBRENNER" - WHO WAS THE BUILDER AND OWNER OF THE WHOLESALE GROCERY WAREHOUSE FROM 1905 INTO THE 1930S.

THE INTERIOR CONSISTS OF POST AND BEAM CONSTRUCTION AND, EXCEPT FOR THE OFFICE AREA, IS AN UNFINISHED SPACE ON EACH FLOOR.

THIS STRUCTURE CONTRIBUTES TO THE DISTRICT THROUGH ARCHITECTURAL STYLE, PLACEMENT AND ITS ASSOCIATION TO THE RAILROAD-CAUSED DEVELOPMENT OF THE TOWN OF BRUNSWICK

to the main block of the building. It has a shallow built up gable roof with boxed cornice and is covered by the pressed metal/brick simulation material. A single doorway closed with a plywood covering is centered on the east elevation of the rear addition. The most distinctive feature of the rear addition is a large series of wood board and batten doors which fold in accordion fashion to accomodate a rear loading dock on the interior. A pair of large sliding board and batten freight doors are located on the track side (west elevation) of the building.

Except for the office area, the interior of the warehouse is unfinished space. The floors are wide wooden planks, the walls are unfinished wood stud walls. Dominating the center of the building on both the first and second level are massive post wood beams. In the center of the building toward the rear of the building is an open rope operated freight elevator. The first level ends abruptly into a freight loading area in the rear where the addition begins. A short set of stairs leads down to the loading area. On the southwest rear of the main block of the building, a plain unfinished wood stair leads along the east wall from the basement to the second level. In the northwest corner of the building is a finished office which is separated from the warehouse space by a tongue and groove wooden partition with eye level windows. The interior of the office space is finished in tongue and groove; circular corner blocks are located at each of the windows.

5. Description of physical appearance: Gunthers Auction House is a very plain two-storeyed frame warehouse building, with one-story rear frame addition, which faces north from the south side of South Virginia Ave. in Brunswick, MD. The front gabled building is four bays wide and seven bays deep. The main entrance is slightly recessed and is located on the north elevation. It is a pair of full glass-paned doors with three-step concrete stoop with rough wooden railing on one side. Occupying the remaining bays on the north elevation are double hung 6/6 wooden sash windows with plain wood surround. Located in each bay on the west elevation are double hung 6/6 wooden sash with simple wood surrounds. Between the windows on the first and second level is a painted sign lettered on the pressed metal covering which says "D.C. Winebrenner & Son Wholesale Produce." Located in each bay on the east elevation is a double hung wooden 6/6 sash with wood surrounds. Iron bars cover all windows on the first level on each elevation. A door opening which is closed by a plywood covering is located between the third and fourth bays on the first level. The entire building is covered by a pressed metal covering which simulates brick. The building is covered by a built up roof with boxed wood cornice and is constructed on a low concrete foundation. A single brick chimney rises from the center of the east elevation of the building. The one-story frame addition is very similar in appearance and construction (continued)

Has building been moved? yes no. If so, when? _____

6. Statement of significance: The Gunther Warehouse building is significant to the Brunswick Historic District as an example of an early 20th century industrial structure which serviced regional needs through the railroad. The existing structure was built according to the Sanborn Fire Maps between 1904 and 1910. It replaced an earlier saw mill building which was connected to the J.P.Karn & Co. Lumber Yard. Originally - J.P.Karn & Co. was located north and east of the building before it moved to its last location of operation on So. Maryland Ave. Some wood from the old structure may have been used in the present warehouse building. The present warehouse building was built by D.C.Winebrenner between 1904 and 1910 as a Wholesale Grocery Warehouse. D.C. Winebrenner was a large drygoods business in nearby Frederick, MD. It served this purpose into the 1930's and has been used for warehouse space and an auction house since that time. The building reflects the character of an early 20th century railroad warehouse structure with its frame construction covered by a pressed metal covering, unfinished king post beam interior, large advertising sign and open elevation. As the warehouse for a prominent dry goods merchant in the region the building made a significant contribution to the history of commerce in the community in the early 20th century.
