Justification for decision: (Use continuation sheet if necessary and attach map)

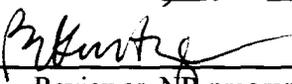

Based on the information presented, the dwelling at 8612 <sup>Opossumtown</sup>~~Opossumtown~~ Pike, Frederick, is a ca. 1900 woodframe, three bay, two story dwelling, set on a stone foundation and oriented to the north. The exterior has been covered with aluminum siding and composite shingles on the roof. The windows are two over two double-hung sashes. There is a full width porch with a side stair entrance, and its roof appears to be perpendicular to the front facade of the dwelling. One outbuilding is included in the review, and it is a 3-bay cement block garage, which appears to be nonhistoric. Because of the nature of the alterations (the aluminum siding and the asphalt shingles) the property is not eligible for inclusion in the National Register of Historic Places, based on criterion C, since it lacks architectural character.

Documentation on the property/district is presented in: Project Review and Compliance Files and Phase I Archeological and Architectural Reconnaissance of the Tuscarora Creek Sewer Interceptor by R. Christopher Goodwin & Associates for Frederick County DPW
