Circa 1870

Walkersville Railroad Station  
Walkersville (Biggs Ford Rd.)  
Public

The Walkersville Railroad Station and Freight Building were built in the 1870's for the completion of the Frederick and Pennsylvania Line Railroad in 1872. The structures served as the depot for the town of Walkersville.

The Railroad Station is constructed of frame and rests upon a stone rubble foundation. The main entrance, located on the east side of the structure consists of a wooden six panel door with one light transom. The north and south sides of the structure are three bays wide filled with 2/2 windows. The structure is covered by a flared, asphalt shingle roof supported by wooden brackets.

The Freight Building to the rear of the station is constructed of frame and covered by an original wood shingle roof. The main entrance, a double wooden door with cross section wood trim is located on the east side of the structure. The north and south sides of the structure are both one bay wide. The windows now missing are crowned by pedimented lintels. Decorative wood trim frames the roof. A drop pendant falls from the center gable of the structure.

## Walkersville Railroad Station and Freight Building

The Walkersville Railroad Station, a one story frame building, is situated on the south side of Biggs Ford Road facing east.

The principal facade is one bay wide. This bay is occupied by the main entrance, a six panel wooden door with one light transom. The north and south sides of the structure are three bays wide. Occupying these three bays are 2/2 windows.

The structure is constructed of frame and rests upon a stone rubble foundation. The structure is covered by a flared roof covered by replacement asphalt shingles. The roof is supported by wooden support-ive brackets.

To the rear of the structure is a frame freight building. The main entrance is located on the east side of the structure. It consists of double wooden board and batten doors trimmed with wooden cross section boards. The north and south sides of the structure are one bay wide. The windows, now missing, are crowned by pedimented lintels. The structure is covered by an original wood shingle roof. Decorative trim work, partially missing, trims the roof. A drop pendant is located in the center gable of the structure.
