DESCRIBE THE PRESENT AND ORIGINAL (IF KNOWN) PHYSICAL APPEARANCE

#18 is a very small, old frame, 1-1/2 story house detached on the left (E) side and is approximately two bays square with a rear, steep-sloped, shed-roofed wing extension of brick and frame, approximately one bay square. The front is covered by clapboarding and the sides and rear are of board and batten. A small, newer door occupies the left bay with a small louvered, shuttered window to the right. The front section has a steep slope "A" frame roof and the rear shed roof are both of metal. A double flue chimney rises from the right gable. This house rests on a low foundation and is fronted by a narrow brick pavement.

STATEMENT OF SIGNIFICANCE

This little house appears to be in better shape than its neighbor at #20 but also has had little maintenance. A fire at #20 would immediately destory this house, too. This house, like its neighbor, is also ~~possibly~~ of log construction.

This house has recently been restored since the survey date *and very large logs have been revealed*
