**DESCRIBE THE PRESENT AND ORIGINAL (IF KNOWN) PHYSICAL APPEARANCE**

This is a detached 2-1/2 story brick structure now holding two houses. It is three bays wide and two bays in depth with #623A having a two bay square wing with a side balcony. Added to this is a pair of small one story extensions, one having wall vents and these may have been early dependencies. The original entrance lies in the right bay with a glass over panels door set in a paneled enframing and topped by a one pane transom with a moulded transom bar. The remaining two bays have been divided into three with another entrance and two windows. All front windows are now 6/1 with moulded wood lintels and sills. Rear area windows are either 6/1 or 6/6 sash with wood lintels and sills. Rear doors are of glass over panels with one pane transoms. The front section has a moderate slope "A" frame roof while the wing has a rather flat roof--both of metal. The front section rests on a three string brick cornice. There are enclosed chimneys rising from the gables and one on the right wall of the wing. The building rests on a high foundation.
