DESCRIBE THE PRESENT AND ORIGINAL (IF KNOWN) PHYSICAL APPEARANCE

#4 Clarke Place is another large detached frame mansion approximately three bays square with a "T" shaped, 2-1/2 story frame wing section of two bays square and with a two story gallery. Bay window sections project on the front and sides and are generally rectangular in shape, except for an angular model on the front. The wood siding has been replaced by aluminum siding on all sides.

The front entrance is off centered toward the left (east) with a period glass over panels door. A wide wrap-around covered porch crosses the front and part of the right side. It is supported by turned pillars and decorated by dentils and a turned spindle cornice. All windows are of 1/1 sash and flat arched except for the gothic arched windows fronting the pediments.

This house has a pyramidal roof of asbestos shingles, pierced by a square chimney at the peak. The rear section is covered by a steep sloped "A" frame roof. The roof-lines are enhanced by pairs of tall pediments rising on the front and sides and extending beyond the walls, braced by small brackets. A very attractive band of embossed metal foliated garlands accents the cornice line. The house rests on a fieldstone foundation.

Interior woodwork is finely carved with beautiful wood finish stairways and numerous mantlepieces, truly an exhibit of Victorian craftsmanship.
