DESCRIBE THE PRESENT AND ORIGINAL (IF KNOWN) PHYSICAL APPEARANCE

#16 is a tall 2-1/2 story brick detached house three bays wide and two bays in depth with a two story brick "L" shaped wing two bays wide and five bays in depth with a small centered balcony and a lower two story brick 1-1/2 bay square extension. The front facade is laid in Flemish bond with the rest in common bond, and the brickwork has been recently restored. The classic front entranceway occupies the right (W) bay with a newer door, paneled enframing, white marble sill and three pane overlight. This is enclosed by Victorian paneled pilasters headed by scrolled and fluted brackets supporting a flat entablature. First floor windows are now of 1/1 sash, the second story retains 6/6 sash and those on the top 1/2 story are of 4+4 casement "lie on your stomach" sash on the front and rear. All front windows have channeled wood lintels. There is a 6/6 JIB window-door with tall louvered shutters on the rear of the front living room. Other rear windows are of 6/6 sash with wood lintels and sills. There are old four panel doors with three pane overlights. The front section has a moderate slope "A" frame roof resting on three string brick cornices and with sidewalls rising to form roof curtains with end buttresses. Wide enclosed chimneys rise from each gable. The wing has a shed roof and both are of metal. The house rests on a low fieldstone foundation. It is fronted by a herring-bone patterned brick pavement, there is a side patio of similar design and the remains of a flower garden in the rear.
