DESCRIBE THE PRESENT AND ORIGINAL (IF KNOWN) PHYSICAL APPEARANCE

This is a two story pair of detached brick houses four bays wide and approximately six bays in depth with rear balconies. Brickwork is of unpainted common bond. Period glass paned doors occupy the inner bays with narrow overlights and are headed by two row segmental brick arches as are all house windows. These windows are all of 1/1 sash. Front entrances are protected by a wide covered porch supported by Doric pillars. The metal roof slopes to the rear and is fronted by an overhanging boxed cornice trimmed with modillions. The building sets on a rather high field-stone foundation and is located back from the pavement with grass plots between the walks.
