**DESCRIBE THE PRESENT AND ORIGINAL (IF KNOWN) PHYSICAL APPEARANCE**

This is a 2-1/2 story brick attached Federal style house which is four small bays wide and two bays deep, with an "L" shaped, one bay, two story wing with a side balcony. Brickwork is of painted common bond. A simple attractive six paneled door with an overlight occupies the right bay while a gate with spindle decor occupies the left bay and opens into a passage way to the rear yard. A three step cast iron porch leads to the doorway. A bay window decorated by dentils is cantilevered above the doorway. Front windows are of 1/1 sash with wood lintels and sills with louvered shutters on the second floor. Rear windows are very small. The moderate slope metal "A" frame roof is topped by a double chimney in the left section. A two string brick cornice supports the front and back rooflines. The house rests on a fairly low foundation.
