DESCRIBE THE PRESENT AND ORIGINAL (IF KNOWN) PHYSICAL APPEARANCE

This is a 2-1/2 story brick detached former house with a one story frame fill-in structure on the left. It is four bays wide and two bays in depth with a more recent two story brick "L" shaped wing angled to the front section to conform to old lot lines of this block. This is two bays wide and six bays long with a rear balcony. It appears to contain two residences from the position of the two side doors and windows. To the rear of the left front bay is a 1/2 bay wide and one bay deep, two story brick extension. The front door occupies the right bay as an entrance to the shop which has large plate glass windows. Second story windows are of 1/1 sash with moulded top wood lintels as over the front door. The wing has 2/2 sash with two row header brick segmental arches. It has doors of four panels and others of glass over panels. The attic is lighted by small 4/2 sash windows on either end. The front section has a steep slope "A" frame roof with an enclosed double flue chimney rising from the right gable. The wing has a shed roof and both are of metal. The front roofline rests on a three string brick cornice. This building sets on a low foundation.

SPECIFIC DATES

BUILDER/ARCHITECT

STATEMENT OF SIGNIFICANCE

This attractive old Federal building is an asset to the neighborhood and an example on how to maintain them, but a window and front door restoration would improve its appearance.
