**DESCRIBE THE PRESENT AND ORIGINAL (IF KNOWN) PHYSICAL APPEARANCE**

This is a 2-1/2 story brick house detached on the left side and approximately three bays square with a two story brick "L" shaped wing, two bays wide and three bays long with a side balcony and a one bay square, one story dependency with a shed roof. All brickwork is in common bond recently restored on the front revealing an old salmon colored brick. The Federal period entranceway occupies the right bay and is very attractive with a six panel door with newer brass hardware, paneled enframing, three pane overhead, period carriage lamps on either side, a white marble door sill and a Federal period "shingle" sign board mounted on a bracket over the door. All windows are now of 1/1 sash with flat brick arches of shaped voussoirs on the front, including the doorway and wood lintels and sills on the rear. Front windows are protected by louvered shutters. There is a glass over panels door in the wing and it formerly had an overhead. The attic is lighted by two small four pane sash in the left gable. The front section has a moderate slope "A" frame roof with a double flue enclosed chimney on the left and apparently sharing a double flue un-enclosed chimney with #264 on the right. The front section has a moderately pitched "A" frame roof supported by a three string brick cornice on the front and by a two string brick cornice on the rear. The wing has a shed roof and both are of metal. This building rests on a rather low fieldstone foundation. The interior has also been restored and has attractive fireplaces and chandeliers.

----------------	-------------------

## STATEMENT OF SIGNIFICANCE

This old Federal house is a good example of restoration into a real estate office without changing its character and appearance of the front facade. It is a showplace for this block of other Federal buildings.
