DESCRIBE THE PRESENT AND ORIGINAL (IF KNOWN) PHYSICAL APPEARANCE

This is a small 2-1/2 story brick house detached on the right side and being three bays wide by two bays in depth with an added two story brick "L" shaped wing approximately four bays long and two bays wide, formerly with a side balcony. All brickwork is in common bond with the front recently sandblasted. The front entrance occupies the left bay with a newer six panel door, paneled enframing, and wood lintel. To the right is a double 1/1 sash window with a grooved mullion (common in this block) and long wood lintel. On the second story are 6/6 sash windows with wood lintels and sills as on the rear. The attic is well lighted by a double 2/2 sash peaked dormer window on the front and two small four pane windows in the right gable. The front section has a moderate slope "A" frame wood shingle roof with rather large enclosed chimneys rising from each gable. This is supported by three string brick cornices on the front and rear. The wing has a metal shed roof. The building rests on a low fieldstone foundation.
