### DESCRIBE THE PRESENT AND ORIGINAL (IF KNOWN) PHYSICAL APPEARANCE

This is a large detached, three story townhouse being three bays wide, three bays in depth and with a three bay long, two bay wide wing. The roofline is stepped down to two stories by the end of the third bay. The building has a metal roof with a tall square chimney enclosed in the east wall. A small extension is added to the end of the building. A balcony extends along the east wall of the wing. Brickwork is of salmon color laid in common bond and recently sandblasted. The entranceway occupies the west front bay and has a four paneled door with a rectangular transom and sidelights of three panes over paneling. It is framed by plain pilasters and entablature. Second and third floor windows are 6/6 sash with flat brick arches and louvered shutters. First floor windows are 1/1 sash and delicately moulded wrought iron window box grills guard the first floor windows. All windows have wooden sills. There are no side windows on the front section.

The broad overhanging cornice has carved brackets tied together by a wood moulded band. A ten row brick frieze protrudes from the face of the wall. The front doorway is reached by a two step granite stoop with iron railings. The fieldstone foundation is relatively low with front basement windows.
