DESCRIBE THE PRESENT AND ORIGINAL (IF KNOWN) PHYSICAL APPEARANCE

A 2-1/2 story duplex structure, this building is part of a row of other houses and is five bays in width and two bays deep. The "U" shaped wings are one bay wide and five short bays in depth. The front section has a moderate slope "A" frame metal roof with chimneys enclosed in the gables. The metal roofs of the wings are of shed design, sloping toward each other. Each house has a peaked 6/6 sash dormer window on the rear roof of the front section. Balconies are on the rear of each wing. Brickwork is common bond and painted.

The front doors are located in the first and fourth bays from the east and a gateway through the first floor area to the rear yards occupies the center bay. The single doors are one pane over wood paneling with an overlight and with segmental brick arches. #128 has a cement porch with iron railing and #130 has a covered brick porch with iron railing. The gate is of board and batten with a segmental brick arch. The four windows across the top and two on the first floor are of 1/1 sash, segmental brick arches and have wood sills. #130 has a wrought iron window box grill on the first floor. Side and rear windows are of 6/6 sash with wood lintels and sills. A three string brick cornice runs along the front roofline.
