DESCRIBE THE PRESENT AND ORIGINAL (IF KNOWN) PHYSICAL APPEARANCE

This is a 2-1/2 story brick attached pair of houses, four bays wide and approximately three bays deep with brick, two story "U" shaped wings 1-1/2 bays wide and three bays long with side balconies and one story extensions. All brickwork is of common bond and there are star brace terminals on the left wall. Front entrances occupy the inner bays with newer doors, round arched transoms, white marble sills, and framed by pilasters, fronted by half round fluted pillars on square attached pedestals. These are shaded by flat entablatures supported by scrolled, fluted brackets. They are approached by three step brick porches with wrought iron railings. On either side are double windows with moulded mullions decorated by a band of shingled motifs. All front windows are of 1/1 sash with two row header segmental arches with the bottom row recessed forming a hood. A newer bay window projects above the doorway on #29, decorated by fluted pilasters and panels. Rear windows are of 6/6 sash with wood lintels and sills. The attics are lighted by a 6/6 sash with wood lintels and sills. The attics are lighted by a 6/6 sash dormer window in the rear roof of each house. The front section has a moderate slope "A" frame roof of slate resting on what appears to be a three string brick cornice with the middle row dented on the front. Small enclosed chimneys rise from each gable. The wings have metal shed roofs. This building sets on a low foundation. There are long yards to the rear.
