DESCRIBE THE PRESENT AND ORIGINAL (IF KNOWN) PHYSICAL APPEARANCE

#133 is a detached 2-1/2 story symmetrical stone and brick house three bays wide and two bays deep with mostly a stone west and rear wall. The front and left bay were apparently added later in common bond brickwork. The wing is of two stories, two bays deep and one bay wide with the side balcony joining the rear balcony of the front section.

A newer door occupies the center bay and is approached by a rather high porch. Upper story windows are of 2/2 sash and all others are of 1/1 sash. The remains of small windows light the attic from the gables. There are 6/6 pane windows on the rear area.

The front section has a steep sloped metal "A" frame roof resting on two string brick cornices. Small enclosed chimneys rise from each gable.

This house rests on a high fieldstone foundation atop a natural outcropping of fieldstone.
