Sampson Rock Road Houses

Architectural Survey File

This is the architectural survey file for this MIHP record. The survey file is organized reverse-chronological (that is, with the latest material on top). It contains all MIHP inventory forms, National Register nomination forms, determinations of eligibility (DOE) forms, and accompanying documentation such as photographs and maps.

Users should be aware that additional undigitized material about this property may be found in on-site architectural reports, copies of HABS/HAER or other documentation, drawings, and the “vertical files” at the MHT Library in Crownsville. The vertical files may include newspaper clippings, field notes, draft versions of forms and architectural reports, photographs, maps, and drawings. Researchers who need a thorough understanding of this property should plan to visit the MHT Library as part of their research project; look at the MHT web site (mht.maryland.gov) for details about how to make an appointment.

All material is property of the Maryland Historical Trust.

DESCRIBE THE PRESENT AND ORIGINAL (IF KNOWN) PHYSICAL APPEARANCE

House: #1

This frame house is situated on a hilly area at the foot of Big Savage Mountain, and faces north. It is a two story, two bay by one bay structure with a gable roof. A 1½ story shed addition abuts the rear south elevation. A porch extends across the facade (presently propped up by two 2" x 4" posts). The entrance is located to the east side of the facade.

Two over two sash windows light the house. A single pane window appears in the east and west elevation of the ½ story in the shed addition. A double, three over one sash window appears on the first story front of the east elevation (and probably on the west elevation as well). The house is covered with hexagonal-shaped asphalt shingles. Asphalt shingles cover the roof.

House: #2

A second, almost identical house sits east of this one.

BUILDER/ARCHITECT

STATEMENT OF SIGNIFICANCE

These houses are examples of common western Maryland type dwellings. Houses of this general configuration, a rectangular main block, were constructed in Garrett County from the late nineteenth through the early twentieth centuries.
