

**INDIVIDUAL PROPERTY/DISTRICT
MARYLAND HISTORICAL TRUST
INTERNAL NR-ELIGIBILITY REVIEW FORM**

Property/District Name: Allegheny Vernacular House Survey Number: G-IV-A-028

Project: US 219/Oakland Vicinity Improvement Project Agency: MSHA

Site visit by MHT Staff: No Yes Name _____ Date _____

Eligibility recommended Eligibility **not** recommended

Criteria: A B C D Considerations: A B C D E F G None

Justification for decision: (Use continuation sheet if necessary and attach map)

Historical documentation does not indicate that this resource is associated with Criterion A, broad patterns of history or a significant event or Criterion B, an important person who contributed to local or state history. The property does not embody distinctive characteristics of a type, period, or method of construction nor does it represent the work of a master or possess high artistic value; therefore, Criterion C, architecture, does not apply. Lastly, the property is unlikely to yield information which contributes to our understanding of human history.

Document on the property/district is presented in: Historic Structures Inventory and Determination of Eligibility Report

(KCI/MSHA 1997)

G-IV-A-028
Allegheny Vernacular House
Oakland Vicinity
Garrett County

Preparer: Helen P. Ross
Date Prepared: March 27, 1997

This Allegheny Vernacular House at the US 219/Jasper Riley Road junction has undergone numerous changes since last surveyed in 1970. The weatherboard cladding has been replaced by vinyl siding and the second-story facade balcony has been enclosed. The fenestration remains with the exception of the single light, double hung sash vinyl in the porch and the enclosure of the south entry door with a hipped roof, frame vestibule. The roof has recently been covered with asphalt shingles.

Some of the outbuildings located behind and west of the main dwelling include two sheds and a garage. All three single story buildings share similar features such as concrete foundations and corrugated metal siding. The gambrel roofed garage has a horizontal aluminum bay door and a projecting stove pipe while the abandoned, frame, shed roofed shed has exposed rafter tails and a few six-light, fixed sash windows.

DESCRIBE THE PRESENT AND ORIGINAL (If known) PHYSICAL APPEARANCE

This house is a 2 storey plus attice rectangular frame dwelling. Only one room deep, the facade is divided into three bays with the door at the center. Above the doorway on the second level is a balcony whose roof is part of a projecting peaked gable at attic level. A porch runs across the front of the house.

STATEMENT OF SIGNIFICANCE (Include Personages, Dates, Events, Etc.)

This house is representative of a type that Henry ^HM. Glassie [former ?] State ^{Folklorist}Ethnologist for the Commonwealth of Pennsylvania has called the common American house, but especially with reference to the Appalachians. His study of this type included Western Pennsylvania, West Virginia, the Shenandoah Valley, the Great Smokies, etc., but the type is found elsewhere and especially throughout Maryland. It consists, basically, of a narrow rectangular gabled roof block, usually only one room wide and contain^{ing} 2 or 3 rooms per floor; it is usually 2 storeys in height plus attic level. One common feature of this type is the peaked gable in the center of the roof, which shows the influence of Downing [one of the most important single influences on American domestic architecture]. Here the peaked gable is extended out to shelter a second storey porch; there is a porch across the front at first floor level and these porches plus the simple bracketing are in keeping with Garrett County. The type, in infinite variations, abounds, but this is included because of its lack of major alteration and its porches are reflective of the region's climate, etc.

[Garrett County survey will mention type as "Allegheny venacular," for convenience.]
