Eligibility recommended Eligibility **not** recommended

Criteria: A B C D Considerations: A B C D E F G None

Justification for decision: (Use continuation sheet if necessary and attach map)

The C.V. Mersing House, built *circa* 1900, relates to the late nineteenth and early twentieth-century development of the Mountain Lake Park region as a resort area. Mountain Lake Park was founded in 1881 as a Christian resort community modeled after the Chautauquas begun in New York state in the late nineteenth century. Situated a short distance east of Oakland and adjacent to the B & O rail line, Mountain Lake Park in the late nineteenth and early twentieth centuries combined religious, educational, and cultural activities into a wholesome retreat. But unlike Deer Park and Oakland where the B & O had built large lodgings for its wealthy patrons, Mountain Lake Park emphasized more modest, privately-owned family units, and thus smaller, single-family dwellings predominated. The Mersing house is typical of much of the area's early-twentieth-century architecture.

Research has not identified any associations with the lives of persons significant to the Oakland area's past or with events that have contributed significantly to broad patterns of the area's historical development. The architecture does not represent a particularly distinctive type, period, or method of construction, nor does it represent the work of a master, possess high artistic values, or represent a significant and distinguishable entity whose components may lack individual distinction. This resource has not yet yielded and is not likely to yield significant information important in history or prehistory.

Document on the property/district is presented in: Historic Structures Inventory and Determination of Eligibility Report

Addendum Sheet

G-IV-A-113
C.V. Mersing House
Garrett County

Preparer: Gabrielle M. Lanier
Date Prepared: March 28, 1997

The Mersing House is a two-story, gable-roofed T-plan frame dwelling with a full-width open-sided frame front porch, a two-story gable-roofed rear addition, and a fully-enclosed hip-roofed rear porch. The building is clad in asbestos shingles and topped with an asphalt-shingled gable roof with a wooden eave. An interior brick chimney rises at the ridge line near the center of the house. The windows are mostly two-over-two, double-hung sash with wooden surrounds, and the doors typically consist of paneled wooden half-glass or three-light half-glass doors. Several fixed six-light sash windows also light the interior. The front porch includes a wooden deck, four-by-four wooden posts, and an asphalt-shingled shed roof. The enclosed rear porch is lit by several closely-spaced one-over-one, double-hung sash windows.

Although the Mersing House appears to have undergone few changes since the previous survey, there is one outbuilding on the property that was not included in the original survey description. This is a semi-ruinous one-story concrete block garage topped with an asphalt-shingled gable roof and extended on one gable with a small one-story addition. Two large garage-sized doors pierce the southwest elevation of the main block, and a standard-sized door leads into the same elevation of the addition. The roof of this building was collapsing when the property was surveyed.

G-IV-A-113

C.V. Mersing House
Oakland
Private

circa 1900

The C.V. Mersing house is a two story, three bay by two bay frame house that is of minimal architectural significance because it represents a very common house type in Garrett County.
