

**INDIVIDUAL PROPERTY/DISTRICT
MARYLAND HISTORICAL TRUST
INTERNAL NR-ELIGIBILITY REVIEW FORM**

Property/District Name: Richard E. & Marietta E. Jordan House Survey Number: G-IV-A-256

Project: US 219/Oakland Vicinity Improvement Project Agency: MSHA

Site visit by MHT Staff: No Yes Name _____ Date _____

Eligibility recommended Eligibility **not** recommended

Criteria: A B C D Considerations: A B C D E F G None

Justification for decision: (Use continuation sheet if necessary and attach map)

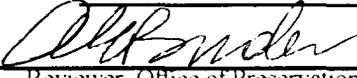

The Richard E. and Marietta E. Jordan House, built *circa* 1910, relates to the continued growth and settlement of the Oakland area in the late nineteenth and early twentieth centuries. The development of summer vacation resorts and hotels in the Oakland area helped to stimulate settlement of the region on the outskirts of town. Toward the end of this period, a writer described Oakland as a commercial town surrounded by rich farming and grazing land. The Jordan house typifies much of the region's early-twentieth-century architecture.

Research has not identified any associations with the lives of persons significant to the Oakland area's past or with events that have contributed significantly to broad patterns of the area's historical development. The architecture does not represent a particularly distinctive type, period, or method of construction, nor does it represent the work of a master, possess high artistic values, or represent a significant and distinguishable entity whose components may lack individual distinction. This resource has not yet yielded and is not likely to yield significant information important in history or prehistory.

Document on the property/district is presented in: Historic Structures Inventory and Determination of Eligibility Report

Jordan House
G-IV-A-256
983 East High Street
Oakland vicinity
Circa 1910
Private

This is a two-story, three-by-two-bay, gable-roofed frame Z-plan dwelling with shed-roofed front porch. It includes a rockfaced concrete block foundation, weather boarded walls, and an asphalt-shingled gable roof with two interior brick chimneys. Windows include single and paired, three-over-one, double-hung wood sash with wooden trim. Visible doors include wood and glass or modern hollow-core steel doors with wooden surrounds. The house faces north-northeast and occupies a mostly open, sloping site about 3/4 of a mile of Oakland.

7. Description

Inventory No. G-IV-A-256

Condition

excellent deteriorated
 good ruins
 fair altered

Prepare both a one paragraph summary and a comprehensive description of the resource and its various elements as it exists today.

This is a two-story, three-by-two-bay, gable-roofed frame Z-plan dwelling with a shed-roofed front porch. The house faces north-northeast and occupies a mostly open, sloping site about 3/4 of a mile east of Oakland.

The house is built on a rockfaced concrete block foundation. The walls are clad in wooden weatherboards finished with a narrow wooden cornerboards, and the building is topped with an asphalt-shingled gable roof finished with a boxed wooden eave with returns. Two interior brick chimneys with corbelled drip caps rise from the roof. Large diamond-shaped fixed sash windows at each gable peak light the attic. The house is presently painted a weathered white with green trim and a green roof.

Windows are a mixture of single and paired, three-over-one, double-hung wooden sash finished with flat wooden surrounds, sills, and drip caps. One window on the front elevation has been replaced with vinyl sash fitted with simulated muntins. Cellar windows consist mostly of fixed sash. The front entrance is roughly centered on the front elevation and is fitted with a new hollow-core steel door. The rear entrance, which is located on the opposite elevation, was covered with plastic and was not visible when the house was surveyed. A cellar entrance pierces the northwest elevation and contains a wooden door lit by a single diamond glass pane. All door openings are finished with flat wooden surrounds.

An open-sided shed-roofed front porch spans part of the front elevation. This porch rests on a concrete block foundation and include a plywood deck. Its asphalt-shingled roof is presently supported on four-by-four wooden posts. A set of new wooden steps leads up to the level of the porch deck. The L-shaped rear porch has been removed, but the concrete foundation is still visible.

No additional outbuildings stand on the property. A driveway oriented perpendicular to East High Street runs along the western side of the house. Several large deciduous trees shade the yard. Although the house retains a good deal of integrity, it is presently vacant and appears to be undergoing extensive renovations.

8. Significance
