Bettinazzi House  
G-IV-A-181 284  
513 D Street  
Oakland vicinity  
1934  
Private

The Bettinazzi House is a one-and-one-half story, frame, side gable-roofed dwelling clad with vinyl siding, with a three-bay-wide facade, and an interior brick chimney stack. All of the original windows have been replaced with modern vinyl units. None of the original doors remain.

The Bettinazzi House, erected in 1934 according to County tax records, is associated with patterns of expanded settlement in areas previously located on the fringes of the Town of Oakland. Situated east of Oakland, Mountain Lake Park by the mid-twentieth century had transformed into a year-round residential community. This altered house helps to document that adaptation.

Prepare both a one paragraph summary and a comprehensive description of the resource and its various elements as it exists today.

The Bettinazzi House is located at 513 D Street in Mountain Lake Park. Built in the early to mid 1930's, the square-shaped house is parallel to the road. Situated on the east side of D Street, the property is bounded on the south by a gravel drive and a wooden retaining wall, on the east and north by shared green space, and on the west by the road's edge of pavement. A short, asphalt-paved driveway, on the north side of the dwelling, leads to a modern two-car garage.

The one-and-one-half story, frame, side gable roofed dwelling is clad with vinyl siding, has a three-bay-wide facade, and an interior brick chimney stack. A single-bay, single-story frame addition is adjacent to the rear or east wall. This wing, like the main block has an asphalt shingle covered roof and an exterior brick flue and a single shouldered brick chimney stack. The house rests upon a poured concrete foundation and has a rear shed dormer and a front gable dormer on the main elevation. Attached to the facade is an enclosed, three-bay-wide frame porch. It is shed-roofed and vinyl siding extends from the foundation to the wide roof eaves.

All of the original windows have been replaced with modern, 1/1, double-hung sash vinyl units. The windows in the basement are fixed wooden sashes and in the rear extension, a large Chicago-style unit is observed. None of the original doors remain; the front unit is a single leaf, stained wood, panelled door while the side unit is a six panelled wood door. Just north of the dwelling is a two car garage covered with vinyl siding.
