

INDIVIDUAL PROPERTY/DISTRICT
MARYLAND HISTORICAL TRUST
INTERNAL NR-ELIGIBILITY REVIEW FORM

Property/District Name: Vicki L. Carlson House Survey Number: G-VI-A-044

Project: US 219/Oakland Vicinity Improvement Project Agency: MSHA

Site visit by MHT Staff: No Yes Name _____ Date _____

Eligibility recommended Eligibility not recommended

Criteria: A B C D Considerations: A B C D E F G None

Justification for decision: (Use continuation sheet if necessary and attach map)

The Vicki L. Carlson House, built *circa* 1900, relates to the continued growth and settlement of the Oakland area in the late nineteenth and early twentieth centuries. The development of summer vacation resorts and hotels in the Oakland area in the nineteenth century had helped to stimulate settlement of the region. Toward the end of this period, a writer described Oakland as a commercial town surrounded by rich farming and grazing land. Although no longer as prominent a resort in the early twentieth century, Oakland still remained an important local mercantile and community center and continued its growth during this period. The Carlson house typifies much of the region's early twentieth-century architecture.

Research has not identified any associations with the lives of persons significant to the Oakland area's past or with events that have contributed significantly to broad patterns of the area's historical development. The architecture does not represent a particularly distinctive type, period, or method of construction, nor does it represent the work of a master, possess high artistic values, or represent a significant and distinguishable entity whose components may lack individual distinction. This resource has not yet yielded and is not likely to yield significant information important in history or prehistory.

Document on the property/district is presented in: Historic Structures Inventory and Determination of Eligibility Report

Vicki L. Carlson House
G-VI-A-044
615 Hamill Street
Oakland
Circa 1890-1900
Private

This is a two-story, two-by-two-bay, gable-roofed L-plan frame dwelling with a front porch formed by an extension of the roof over the main block, a one-story gable-roofed concrete block garage addition, an exterior concrete block chimney, and a one-story shed-roofed side addition. The house includes a concrete foundation, asbestos-clad walls, a corrugated metal gable roof, single one-over-one, double-hung wooden sash windows finished with plain wooden surrounds and sills, and paneled wood and glass doors. A frame garage and a frame storage building stand nearby. The house faces southeast and is located on an open, gently sloping site on Hamill Street about a half mile southwest of Oakland.

The Vicki L. Carlson House, built *circa* 1900, relates to the continued growth and settlement of the Oakland area in the late nineteenth and early twentieth centuries. The Carlson house typifies much of the region's early twentieth-century architecture.

<input type="checkbox"/> fair	<input type="checkbox"/> altered

Prepare both a one paragraph summary and a comprehensive description of the resource and its various elements as it exists today.

This is a two-story, two-by-two-bay, gable-roofed L-plan frame dwelling with a front porch formed by an extension of the roof over the main block, a one-story gable-roofed concrete block garage addition, and a one-story shed-roofed side addition. The house faces southeast and is located on an open, gently sloping site on Hamill Street about a half mile southwest of Oakland.

The house is built on a concrete foundation. The walls are clad in white wavy-edged asbestos siding throughout, and the gables of the garage are clad in green asbestos shingles. The building is topped with a corrugated metal gable roof finished with a boxed wooden cornice with partial returns; the garage is also topped with a corrugated metal roof. A concrete block chimney rises from the westernmost corner of the house, and a second interior brick chimney exits near the center of the building. Triangular metal louvers in the gables near the roof peak ventilate the attic. The house is presently painted white with white trim.

Windows are primarily single one-over-one, double-hung wooden sash finished with plain wooden surrounds and sills. The front entrance, which is located on the southeast elevation, contains a paneled wooden multipaned half-glass door. The open front porch is formed by an extension of the southeast slope of the roof. It consists of a wooden deck, a four-by-four wooden post at one corner, and a corrugated metal roof. A fully-enclosed shed-roofed frame addition extends along the southwestern side of the house.

An open-sided shed-roofed frame shed/garage stands northwest of the house. This building is sheathed in plywood and topped with a corrugated metal roof. The building is partially open on one gable, forming a sheltered carport. A second opening on the south side of the building leads to the interior.

A smaller shed-roofed storage building, now in partially ruinous condition, stands to the southwest. This shed is clad in plywood siding and accessed by a set of large swinging doors.

The house is squarely oriented to Hamill Street. A driveway runs along the southern side of the property and terminates in front of the attached concrete block garage. A sidewalk parallels this driveway, leading up to a set of concrete steps and the front door. Several large deciduous and coniferous trees shade the house, but the property is mostly flat and open. The house is presently occupied and is in good condition.

8. Significance
