

**INDIVIDUAL PROPERTY/DISTRICT
MARYLAND HISTORICAL TRUST
INTERNAL NR-ELIGIBILITY REVIEW FORM**

Property/District Name: Mark A. Marucci House Survey Number: G-VI-A-⁰⁹⁸~~041~~
Project: US 219/Oakland Vicinity Improvement Project Agency: MSHA
Site visit by MHT Staff: No Yes Name _____ Date _____
Eligibility recommended Eligibility **not** recommended X
Criteria: A B C D Considerations: A B C D E F G None

Justification for decision: (Use continuation sheet if necessary and attach map)

The Mark A. Marucci House, built *circa* 1940, relates to the expanded settlement of areas previously located on the fringes of the town of Oakland. Characterized by development along pre-existing road networks, these areas were subsequently annexed into Oakland's corporate boundaries. Although no longer a prominent resort, Oakland still remained an important local mercantile and community center, and continued its growth throughout the mid-twentieth century. At mid-century Oakland still stood as the largest town in the county, and new residential construction occurred along major streets entering and leaving the town. The Marucci house is typical of the region's mid-twentieth-century architecture.

Research has not identified any associations with the lives of persons significant to the Oakland area's past or with events that have contributed significantly to broad patterns of the area's historical development. The architecture does not represent a particularly distinctive type, period, or method of construction, nor does it represent the work of a master, possess high artistic values, or represent a significant and distinguishable entity whose components may lack individual distinction. This resource has not yet yielded and is not likely to yield significant information important in history or prehistory.

Document on the property/district is presented in: Historic Structures Inventory and Determination of Eligibility Report
(KCI/MSHA 1997)

Marucci House

~~G-IV-A-011~~ 098 G-VI-A-098

3 North Eighth Street

Oakland vicinity

Circa 1940

Private

This is a one-story, three-by-two-bay, gable-roofed L-plan dwelling with an open shed-roofed front porch, a gable-roofed rear addition which houses a two-car garage at cellar level, and open rear deck. The house includes a plain and rusticated concrete block foundation, weather boarded chimney. The windows, all of which have been recently replaced, include single and paired vinyl casement sash with wooden trim. The door openings contain modern paneled metal and glass, wood, and glass, or glass sliding doors with flat wooden surrounds. Located on the corner of North Eighth and East High Streets, the house faces northwest and occupies an open lot about ½ mile east of Oakland.

The Mark A. Marucci House, built *circa* 1940, relates to the expanded settlement of areas previously located on the fringes of the town of Oakland. Characterized by development along pre-existing road networks, these areas were subsequently annexed into Oakland's corporate boundaries. The house is typical of the region's mid-twentieth-century architecture.

7. Description

Inventory No. G-~~W~~-A-041 ⁰⁹⁸

Condition

excellent deteriorated
 good ruins
 fair altered

Prepare both a one paragraph summary and a comprehensive description of the resource and its various elements as it exists today.

The main block of the house rests on a foundation of rusticated concrete block that encloses a full cellar; the foundation of the rear ell consists of plain concrete block. The walls are clad in natural wood-stained wooden weatherboard, and the house is topped with an asphalt-shingled gable roof finished with a wooden eave. A single interior chimney sided with stained weatherboards to match the rest of the house rises near the ridge of the rear ell. Triangular metal louvers in the upper gables of the main block ventilate the attic.

Windows are a mixture of single and paired vinyl casement sash fitted with snap-in muntins; window openings are finished flat wooden surrounds and sills. All of the window have been recently replaced. The main entrance is centered on the front or northwest elevation; it is fitted with a paneled wooden door lit by a three-light upper section. A rear entrance, which leads into the cellar of the rear ell on the opposite elevation, is fitted with a pair of modern paneled metal and nine-light half-glass doors. A third entrance which is located on the northeast elevation is fitted with modern sliding glass doors leading to the deck. All door openings are finished with flat wooden surrounds.

The full-width shed-roofed front porch rests on wooden piers. It consists of a wooden deck, four-by-four wooden posts, and an asphalt-shingled shed roof. An open two-level wooden deck surrounded by a wooden balustrade and rail stands at the easternmost end of the house; a set of open wooden steps leads from the back yard up to the level of the deck. The gable-roofed rear addition, which extends from the southeast elevation of the house, houses a two-car garage at cellar level.

No outbuildings stand on the property. A jungle gym and sandbox are located in the rear yard. An asphalt driveway running parallel to North Eight Street extends from East High Street to the garage. A concrete sidewalk leads from North Eight Street to the front door. A few deciduous trees shade the house, but the property is mostly flat and open. The house is presently occupied and in good condition.

8. Significance
