

ABSTRACT

HA-1015^B

MASON-DIXON LINE: MILESTONE NO. 40(43)
Wiley, Maryland/Pennsylvania
Public/private

1767 (first set 1902, at
new site on the Line)

Milestone No. 40(43), now in two pieces at two different locations, was an original crownstone of 1767 brought from Washington County and set at a relocated site on the West Line in 1902 to replace the crownstone originally set by Mason and Dixon in 1766, which by the time of the 1900-03 Resurvey of the Maryland-Pennsylvania boundary had been broken off its base and the top removed. This replacement marked the approximate 40th mile west of the initial stone at the northeast corner of Maryland until 1946 when it too was broken off at ground level, though soon retrieved and reset (by 1949), only to be broken off once more ("removed on Halloween 1956" according to Bayliff, 1959, p. 98). It surfaced some time later at the museum of the Historical Society of York County in York, Pennsylvania, where it remains in fairly good condition though the embellishments are indistinct from weathering, and is appropriately displayed, adding significantly to the visual representation of the colonial and Civil War heritage, available to the public at large as well as their county school educational program. The base, still in place in Wiley, is scarcely recognizable: a nondescript patch of concrete with a squared imprint from the monument (when formerly reset), flush with the ground. If No. 40(43) was its original full length of approximately 4 1/2', the below-ground portion would be at least 3' and probably surrounded by a large concrete collar. Until there is some kind of visual marking of the Line in Wiley, this base does not have the significance of its predecessor/^{believed still}at the original site, some 115' to the east, unexposed.

DESCRIBE THE PRESENT AND ORIGINAL (IF KNOWN) PHYSICAL APPEARANCE

Milestone No. 40 (43) was an original Mason and Dixon crownstone of 1767 brought from Washington County ^{in 1902} to replace the crownstone originally set in the vicinity to mark the 40th horizontal mile west of the initial stone at the northeast corner of Maryland, the beginning point of the 230.228-mile West Line. Although the site of the original ^{Monument No. 40(42)} is now unexposed and the above-ground portion ^{had been} broken off and removed before the 1900-03 Resurvey of the Maryland-Pennsylvania boundary, the present site was established at a more suitable location, an estimated 115' more or less, west of the original, on the Line. The above ground portion is now in the collection of the Historical Society of York County, Pennsylvania; but the below-ground portion is still in place, firmly imbedded in the collar of concrete surrounding it at the time it was set. The condition of the base is unknown; but the condition of the top is fairly good, and makes a handsome, important addition to the Society's ^{permanent} colonial exhibit.

Wiley is a little crossroads cluster of farmhouses and a store. The land here is quite flat and the farms and other houses are scattered. This new 1902 site is in the northwest corner formed by the junction of PA A-1998 with MD 23 at its right-angle bend, in Wiley, about 1' from the road edge, flanked on the north by 4 wood posts and a utility pole (#114-1), all standing guard but none protecting. This grade-level patch of concrete with its squared indentation where the top was reset by the time of 4/10/49, can be seen easily from the roads, all seasons (except when covered by snow).

The monument top stood in place from 1902 until about 1946, when it was broken off at ground level (T. H. Slaughter report 9/8/48 on file at Maryland Geological Survey); it was reset apparently just by cementing, by the time of the Trussell photos of 4/10/49 (MHS-PP2 collection); only to have been "removed on Halloween 1956" (Bayliff, 1959, p. 98). The Historical Society of York County does not have any accession records for this monument; but has mounted this top appropriately and without any alteration. Originally, it was an embellished colitic limestone post with a low pyramidal top, quarried and carved in England, measuring about 12" square by about 4 1/2' long, cut to stand about 3' above ground. It now measures approximately 12" square, by about 14" high plus an additional rise of the top of about 2" to a centered apex. Both the Penn and Calvert shields are discernible but very weathered, as are all surfaces. **CONTINUE ON SEPARATE SHEET IF NECESSARY** Most fluting remains on the east side but not the west, and there is a large chunk out of the top northeast corner.

SURVEYORS

STATEMENT OF SIGNIFICANCE

Milestone No. 40(43), an original crownstone replacement of 1767 (first set 1902) is of debatable significance except for its short-lived debut/mark^{visually}ing Mason and Dixon's (approximate) ^{40th} mile/along their West line from 1902 until about 1956. Its predecessor, ^{No. 40(42)} the crownstone originally set by Mason and Dixon in 1766, had been broken off from its base (believed still in place) and ^{vanished by the time of the 1900-03 resurvey of the Maryland-Pennsylvania boundary.} The top 14" ^{of No. 40(43)} is now attractively installed in the ^{permanent} colonial exhibit of the Historical Society of York County, and as such is of considerable educational significance locally. On the other hand, with the base of No. 40(42) unexposed, and No. 40(43) only a nondescript grade-level patch of concrete with the squared indent^{ation} /^{from} the original top, there is no visible representation adequately marking this mile, although the integrity of both sites is still intact.

DESCRIBE THE PRESENT AND ORIGINAL (if known) PHYSICAL APPEARANCE

This is said to be the site of the Mason-Dixon Stone #48, a five-mile marker. Neighbor describes a smaller one mile marker with P (for Penn) on one side, M (Maryland) on the other, stolen from this site recently. When was the five-mile marker stolen?

STATEMENT OF SIGNIFICANCE

A one-mile marker was placed here about two years ago, and then stolen. But this is a five-mile mark. (Five mile stones are decorated with the seals of Penn and of Calvert.) When did that disappear from this site?
