Iron Truss Bridge #54
West Ring Factory Road at Winters Run
Bel Air vicinity
Public

ca. 1880-1900

The West Ring Factory Road truss bridge is one of a steadily declining number of late 19th and early 20th century iron bridges in Harford County. These bridges were the successors to the covered bridges and natural fords which predominated in the early 19th century. The small truss bridge is an important part of the development of transportation in the County.

DESCRIBE THE PRESENT AND ORIGINAL (IF KNOWN) PHYSICAL APPEARANCE

The West Ring Factory Road bridge (Harford County Bridge #54) is an iron pony Pratt truss with two panels, pinned connections, and a wood deck. It appears to date from about 1880-1900. The bridge crosses Winters Run on a section of Ring Factory Road closed to traffic. The bridge is severely deteriorated and scheduled for replacement in 1984. Preliminary plans may allow for retention of the bridge in place or relocated to another site.
