

SUMMARY

JESSE PLUMMER HOUSE HA-1048

The Jesse Plummer House consists of three separate sections built over a period of at least 40 years. Owned by the Hanson family from 1860 until 1935, the 1-1/2-story log section (on the south end) of the Jesse Plummer House was probably in existence when the property was sold by Thomas Lilly to Sarah McCracken in 1843. The shed-roofed section on the west side of the log section has log rafters and also seems to pre-date the main two-story house. The latter, whose proportions and plan are surprisingly elegant, probably dates from 1877 when Lydia and Benedict Hanson took out a mortgage on their 15-acre lot.

DESCRIBE THE PRESENT AND ORIGINAL (IF KNOWN) PHYSICAL APPEARANCE

Built in an indeterminate number of stages, this shingled house is located on Cavalry Road (Md. Rte. 136), north of the intersection with Grafton's Lane.

The main section facing east is two stories with a gable roof, three bays wide and two bays deep, with a brick chimney in the north end. The entrance with a four-light transom and a gable-roofed portico is in the south bay of the east side. Most windows have 6/6 sash and occasional louvered shutters; gable windows have four lights. The cornice is boxed with a frieze.

Adjacent to the main structure on the south is a 1½ story, gable-roofed section with a rear salt-box addition. The south facade has a shed-roofed dormer containing two 6/6 sash windows. Aside from the four-light windows in the upper story of the south end, the fenestration appears to be new or altered.

Attached to the west side of the main structure is a two-story, shed-roofed wing with a brick chimney in the west end. Windows in this section are 6/6 on the north side and 6/3 on the south side.

A visit in April, 1980, provided access into the interior and, hence, more information on the structure. The 1-1/2-story southern section is log with a winder staircase in the southwest corner. The fireplace in the south wall has a plain mantel with a cavetto cornice and is flanked on the west by a cupboard. The shed-roofed addition to the north, containing a kitchen, has log rafters.

The main section, probably dating from after the Civil War, has a side hall with a two run-with-landing staircase against the west wall, with the parlor on the north, and two rooms in the west section in the attic, the sawn rafters are mitered. The loss of several shingles on the exterior reveals circular sawn clapboards.

BUILDER/ARCHITECT

STATEMENT OF SIGNIFICANCE

This property was owned by the Hanson family from at least 1860 until 1935. In 1860 Lydia Hanson purchased part of "Stoney Ridge" and "Paca's Enlargement" for \$800 from Catherine McCracken.¹ It is not clear whether the house (or part of it) was already here, but the 1858 Jennings and Herrick Map attributes a structure on or near this location to F. B. Hanson. An 1877 mortgage taken out by Benedict H. Hanson and his wife, Lydia, reveals that the lot was 15 acres in size and it remained so until 1947.

Lydia Hanson died in 1881 and her son, David Hanson subsequently acquired the property.² He died in 1924 and the lot passed to his widow.³

This house appears to have evolved with each transaction within the Hanson family. The exterior-shingled and re-modelled more than once-offers few clues. The boxed cornice underscored by a frieze and the side hall plan, however, hint at a former elegance. The plan, in particular, is unusual in this area, especially in a rural situation. Houses with sidehall plans were more frequently seen in towns where lots were small and the hall was put on one side to allow a parlor of sufficient breadth.

DESCRIBE THE PRESENT AND ORIGINAL (If known) PHYSICAL APPEARANCE

This three-part house looks as though its parts had been built separately and then ~~added together~~, moved up. All are shingle covered.

Section A is a 1 1/2 story cottage, perhaps for construction, now covered with shingles. Probably over 2 bays by 2 (with a lean-to adding 2 bays by 2), it now has a large picture window facing the east. There are two flat dormers. A chimney rises to the peak inside the south end wall. Saws are trim.

Section B is a frame side-hall house two stories, a chimney inside the north end wall, a portico at the front-(east) door. Saws are moderately close; mouldings none ~~of~~ returns.

Section C is a shallow wing 3 bays by 0, under a lean-to roof. A flue rises ^{along} the west end wall.
