

HA-1126
WILLIAM MOORE HOUSE
Havre de Grace, Md.

c. 1847

The William Moore House is a good example of a pre-Civil War owner built house, of which there are many in Havre de Grace. It is a two story frame structure with an ell containing a two story porch in the south wall and has a view of the Susquehanna River where it flows into the Chesapeake Bay.

DESCRIBE THE PRESENT AND ORIGINAL (IF KNOWN) PHYSICAL APPEARANCE

710 Market Street is a two story, three bay by one bay, detached frame dwelling with a two story, three bay by one bay ell on the rear. The house is covered with asbestos shingles, painted white with blue trim, and has a low brick foundation. A large grassy lot on the south and west containing large trees and the view of the Susquehanna River flowing into the Chesapeake Bay make the location of the house, which faces east on Market St. extremely pleasant. The dwelling was built by William Moore, great grandfather of the present owner, sometime before 1858.

The house has a three bay front porch with jig saw cutout brackets and flat roof. A two story porch extends across the south wall of the ell; it is screened on the first floor and has a simple fence rail with posts supporting a shed roof on the second.

Windows are spaced evenly on the facade. On the first floor, they were lengthened and fitted with 6/1 sash by the present owner's grandfather; they are flanked by louvered shutters. Windows in the second story, facade have 6/6 light, pegged sash like those in the rest of the house.

The main entrance is in the north bay of the facade. The door has six vertical panels with a three light ransom above. A door is in both stories of the east bay of the ell.

The main section has a gable flank roof covered with asphalt shingles and the ell also has a gabled, asphalt roof. A rectangular brick, interior chimney straddles the ridge of the south side of the roof and another brick chimney is on the center of the ell.

Interior: The first floor is a one room wide with a side hall. Closed string stairs with a simple rounded hardwood post and handrail are on the north wall of the hall. A fireplace (closed) with a plain mantel is on the south wall of the front room. In the ell are the dining room and the kitchen.

BUILDER/ARCHITECT

William Moore

STATEMENT OF SIGNIFICANCE

The William Moore House is a good example of a pre-Civil War, owner built house, of which there are many in Havre de Grace. According to Mrs. Jenny Hipple (mother of the present owner), the house was built about 130 years ago by her grandfather, William Moore who hastened to finish it before the birth of his first child. Her grandfather made his living on the water as did her father. With the exception of a few years, the house has always been lived in the same family. Changes were made to the house all along, one of them being the lengthening of the first floor windows by her father.

The house, a two story frame structure, has a well with a two story porch on the south wall. South of the dwelling is a large grassy lot with tall trees and a good view of the Susquehanna River-where it flows into the Chesapeake Bay-a prime piece of Havre de Grace Real Estate, which the family has resisted selling off.

In 1858 the Herrick and Jennings Map Co. published a map of Harford County which shows buildings and the names of their owners. Not many buildings were in the south side of Havre de Grace when the map was printed; but the William Moore House and one otherhouse are visible on the 700 block of S. Washington Street.
