

ABSTRACT

HA-121

MASON-DIXON LINE: MILESTONE NO. 27(29)

1766 (reset 1902)

Cardiff/Delta, Maryland/Pennsylvania vicinity
Public/private

Milestone No. 27(29) marks Mason and Dixon's 27th mile west of the initial stone at the northeast corner of Maryland, the beginning point of their 230.228-mile West Line, the longest of their survey lines run and marked to define the boundary between the English provinces of Maryland and Pennsylvania. The monument, first set in 1766, is an embellished oolitic limestone post with a low pyramidal top, quarried and carved in England, originally measuring about 12" square by about 4½' long and cut to stand about 3' above ground. Reset in 1902 to stand about 1½' high, it now stands about 1' high, remains in good condition, unaltered, and firmly set at its original site. The capital letters P on the north (Pennsylvania) side and M on the south (Maryland) side are clear and intact, as are most of the fluting and margins. On the federal and state levels, this monument is primarily significant not only as one of the series of original markers still defining the boundary commonly known as the Mason-Dixon Line since Civil War times, but also for its representation of the settlement of longstanding provincial boundary disputes and innovative survey methods utilized by Mason and Dixon a century earlier. Locally, as one of 17 original monuments still standing along the present Harford/York county boundary, it is also significant as one of the diminishing number of objects and structures visually identifiable with our colonial and Civil War heritage.

DESCRIBE THE PRESENT AND ORIGINAL (IF KNOWN) PHYSICAL APPEARANCE

Milestone No. 27(29) marks Mason and Dixon's 27th horizontal mile west of the initial stone at the northeast corner of Maryland, the beginning point of their West Line. It is an original milestone of 1766^{in good condition, unaltered, and} at an original site^{preliminarily surveyed in 1765.}

The area here is predominately rural, sparsely settled, modest farms on ~~rolling land~~ interspersed by patches of woodlands, and with new housing springing up along the main roads. The site is about 1½ miles east-southeast from the town of Delta, Pennsylvania; about 2 miles east of the town of Cardiff, Maryland; about 700' west of Prospect Road (MD 646/PA T-62); about 250' west of the Harryman house and barns, in a mowed gap in a honeysuckle/fence row separating the yard from their fields. It cannot be seen from the road, but easily from the Harryman house, all seasons.

The monument, reset^{to stand about 1½' above ground} in 1902 during the course^{of the} 1900-03 Resurvey of the Maryland-Pennsylvania boundary, now stands about 1' high, measures about 11¼" wide on the north and south faces, about 11½" wide on the east and west faces. As with all original Mason and Dixon West Line monuments: it is an embellished, squared, oolitic limestone post with a low pyramidal top, and was quarried and carved in England, ^{originally about 12" square, by about 4½' long,} cut to stand about 5' above ground. The capital letters P on the north (Pennsylvania) side and M on the south (Maryland) side and their circle panels are distinct and intact, as is most of the fluting and margins on all four sides and the top planes, though there are many small chips along all edges and corners and a very large shallow chip running along the entire top west side. Still firmly in place, it is protected by the property owners and location of site.

(see Thematic Group NR nomination form for descriptions of the original Mason and Dixon monuments and the 1900-03 Resurvey method of resetting them)

STATEMENT OF SIGNIFICANCE

Milestone No. 27(29) first set in 1766 and reset in 1902 in its original site, is significant on the federal and state levels primarily as one of a series of 135 original Mason and Dixon monuments still standing along their West Line, commonly known since Civil War times as the Mason-Dixon Line, notable for its historical impact and innovative boundary survey methods. Individually, and as one of 17 original monuments marking the present Harford/York county boundary, No. 27(29) is also significant locally as one of a diminishing number of objects and structures with a visually identifiable relationship to our colonial and Civil War heritage.
