Bel Air
Private

The Gore House, 122 W. Gordon St., faces south on a wide, tree-shaded lot in Richardson's Addition among simpler neighbors, most of them cottages built before 1930. It is a 2 bay, 2 story, four-square house with the usual hipped roof (slate) and hipped dormer, this one with 3 six-pane windows, and a hip-roofed porch carried on 3 tapered square posts on stone piles. It is now sided in white aluminum.

Building began west of Main St. in Richardson's Addition in the 1880s; it and the Hayes Addition begun at the same time are the oldest extensions of the town. It is a mix of styles from Victorian to brick rancher, and a mix of classes as well, with working-man's housing along the north and south edges and middle class homes through the center. The Gore house, built there in 1921 or 1922 for Howard Gore and his wife, is the most elegant four-square in town, and unlike the more boxy versions, this one is classical in looks and spacious, light, and airy inside.

Prepare both a summary paragraph and a general description of the resource and its various elements as it exists today.

Contributing resource count: one

The Gore House, 122 W. Gordon St., faces south on a wide, tree-shaded lot among simpler neighbors, most of them cottages built before 1930. It is a 2 bay, 2 story, four-square house with the usual hipped roof (slate) and hipped dormer, this one with 3 six-pane windows, and a hip-roofed porch carried on 3 tapered square posts on stone piles. Now sided in white aluminum, it looks more classical than most of its kind in town.

Its fenestration is idiosyncratic: 10/1 double-hung sash, tripled in the downstairs front, doubled on the whole east side and on the west ground floor rear, and single elsewhere, and a pair of casements in the ground floor front, all flanked by black shutters. The ground floor plan is unusual, too, essentially 4 rooms of equal size: entry hall and living room, followed to the north by the dining room and sitting room. Across the rear is a single story, shed-roofed addition which includes the kitchen (west) and a bedroom and bath (east). The whole interior is unusually spacious and light.

The detail inside is more complex than usual. The wide hall has a flagstone floor. The closed-string staircase with square newel and balusters has a wide landing half way up where it dog-legs. The casement windows light the lower stair, and a full window lights the landing. Its odd placement can be seen in the west elevation. Door surrounds are grooved and corniced. The hall-living room opening (with French doors) and the one between the living room and sitting room are so wide that they hardly seem to exist. The north sitting room wall has a field stone fireplace with a thick wood slab shelf and barn siding from Mrs. King's home place flanking it. The east wall of the dining room has a series of built in cupboards and shelving in antiqued knotty pine. Four bedrooms and a bath are upstairs. The doors there have 5 horizontal panels. An entrance in the east elevation leads to the dining room and basement. The unique floor plan and many of the elegant touches are the work of the Kings, for which, see the next section.

Prepare both a summary paragraph of significance and a general statement of history and support.

Building began west of Main St. in Richardson's Addition in the 1880s; it and the Hayes Addition, begun at the same time, are the oldest extensions of the town. It is a mix of styles from Victorian to brick rancher, and a mix of classes as well, with working-man's housing along the north and south edges and middle class homes through the center. The Gore house, built there in 1921 or 1922 for Howard Gore and his wife, is the most elegant four-square in town, and unlike the more boxy versions, this one is classical in looks and spacious, light, and airy inside.

Mrs. Gore sold the house to real estate agent Glenn Tilley in 1946. His daughter, now Virginia Torgerson, took care of him after his wife died. She now lives at 126 West Gordon [HA-1793], two doors west. His other daughter, Betty Potter, owned 330 West Gordon [HA-1793], three doors west, from 1970 to 1983.

The house was a rental for a while before the Kings bought it in 1969. They made a number of changes before they moved in: the flagstone floor in the hall, the fireplace and paneling in the sitting room, which had been the dining room, and the conversion of the kitchen to a dining room with antiqued knotty pine built-in cupboards and shelves in the east wall. The rear addition containing the new kitchen and a master bedroom suite was done at that time. They also added the aluminum siding.
