

Harrison House
3872 Old Columbia Pike
HO-635

Located on 1.3 acres on the north side of Old Columbia Pike, this 2 1/2 story house was built about 1895. Designed in the Queen Anne style, the house is L-shaped with a massed plan, a broad hip-on-gable roof and overhanging eaves. There is a prominent secondary gable on the west side forming the front section of the ell which holds the door. A broad porch wraps around the west and front facade.

This house is a simplified example of Queen Anne architecture, probably reflecting the Quaker heritage in Ellicott City.

Prepare both a summary paragraph and a general description of the resource and its various elements as it exists today.

Located on 1.3 acres on the north side of Old Columbia Pike 200 feet from the right-of-way, this 2 1/2 story house was built about 1895. Designed in the Queen Anne style, the house is L-shaped with a massed plan, a broad hip-on-gable roof and overhanging eaves. There is a prominent secondary gable on the west side forming the front section of the ell which holds the door. A broad porch wraps around the west and front facade.

The fenestration is asymmetrical with a gable on hip central dormer, a rounded bay window wraps around the southwest corner of the second story and there is another bay window on the southeast corner of the first story. The five panelled door is topped by a narrow transom light. The hipped roof porch is supported by six slender square columns with scrolled brackets.

The hipped gable ell is one bay by one bay on the north or rear of the building but extends for an additional bay along the west wall of the main block and holds the front door. A contemporary sliding glass door opens onto a brick terrace on the north side of the ell.

Windows are double hung 12/1 sash. Windows on the facade and east side have louvered shutters. The roof is sheathed in rolled asphalt and the siding is clapboard, although the owners are currently installing vinyl siding over the clapboards. The cut granite ashlar foundation is laid in regular courses and is unusually formal for this area. Two tall brick chimneys interrupt the roof line. A large rectangular chimney, corbelled at both the midsection and top, is located on the center slope of the ridge on the main block. An unembellished chimney extends from the center of the ridge of the ell.

There are two historic outbuildings on the property, a shed-roofed board and batten chicken house northwest of the house and board and batten garage northeast of the house.

The lot, which drops down to the Cat Rocks Branch stream valley to the west, includes a number of mature trees. Granite gateposts, probably once connected to an iron fence, frame the walkway entrance on Old Columbia Pike.

8. Significance
