MARYLAND HISTORICAL TRUST
INTERNAL NR-ELIGIBILITY REVIEW FORM**

Property/District Name: 8489 Heatherwold Drive Survey Number: HO-682

Tax Parcel#: 322

Project: Maryland 216/29 Project Planning Study Agency: MDOT-SHA

Site visit by MHT Staff: no yes Name _____ Date _____

Eligibility recommended _____ Eligibility **not** recommended X

Criteria: A B C D Considerations: A B C D E F G None

Justification for decision: (Use continuation sheet if necessary and attach map)

The house at 8489 Heatherwold Drive is not eligible due to the fact that it does not meet National Register Criteria A, B, C, or D. Preliminary research has not revealed any association between the dwelling and events that have made a significant contribution to the broad patterns of our history (Criterion A) or the lives of persons significant in our past (Criterion B). Although the building provides an example of the Gothic Revival style, it is neither unusual nor distinguished; it does not represent the work of a master or display high artistic merit (Criterion C). There is no evidence that the property is likely to yield information important in history or prehistory (Criterion D). Thus, the property is not National Register-eligible.

Documentation on the property/district is presented in: Maryland Historical Trust Inventory Form

and Maryland 29/216 Project Planning Report

CAPSULE SUMMARY
8489 Heatherwold Drive
(HO-682)

The 1900 Gothic Revival house at 8489 Heatherwold Drive was originally a two-and-one-half-story, three-bay, single pile residence with a pointed window in the front gable. Two later additions were made to the house. A one-story, wood frame, shed addition with salvaged 2/2 windows was added to the west, and a large one-and-one-half-story, three-bay, wood frame addition with a side gable roof pierced by two gable dormers was constructed to the east. The wood frame house, which sits on a solid foundation, has been reclad in vinyl siding and currently has an asphalt shingle roof. There are two brick chimneys, one exterior chimney and one interior. A one story, seven-bay porch with square, wood posts extends across the majority of the facade.

The property on which 8489 Heatherwold Drive is sited was sold on September 3, 1900 to Joseph D. Harding, a prominent Scaggsville resident. Joseph Harding, who subdivided much of the land in this area, most likely built the Gothic Revival residence at that time. The Harding family continued to own the property until 1991 when it was sold to Steven J. Montgomery.

The house also reflects the encroachment of the Washington and Baltimore suburbs in this once rural area. Once set on a 110-acre property, the house now stands on a 20,850 square feet lot. Typical of this late twentieth century development, the original house remains intact, incorporated into the design of a modern subdivision. Although the house no longer retains its relationship with Scaggsville Road and sits on a fraction of its original land, its form distinguishes it from the surrounding modern Colonial Revival-style dwellings.

8. Statement of Significance
=====

Applicable National Register Criteria (Mark "x" in one or more boxes for the criteria qualifying the property for National Register listing)

- A Property is associated with events that have made a significant contribution to the broad patterns of our history.
- B Property is associated with the lives of persons significant in our past.
- C Property embodies the distinctive characteristics of a type, period, or method of construction or represents the work of a master, or possesses high artistic values, or represents a significant and distinguishable entity whose components lack individual distinction.
- D Property has yielded, or is likely to yield information important in prehistory or history.

Criteria Considerations (Mark "X" in all the boxes that apply.)

- A owned by a religious institution or used for religious purposes.
- B removed from its original location.
- C a birthplace or a grave.
- D a cemetery.
- E a reconstructed building, object, or structure.
- F a commemorative property.
- G less than 50 years of age or achieved significance within the past 50 years.

=====
The 1900 Gothic Revival house at 8489 Heatherwold Drive was originally a two-and-one-half-story, three-bay, single pile residence with a pointed window in the front gable. Two later additions were made to the house. A one-story, wood frame, shed addition with salvaged 2/2 windows was added to the west, and a large one-and-one-half-story, three-bay, wood frame addition with a side gable roof pierced by two gable dormers was constructed to the east. The wood frame house, which sits on a solid foundation, has been reclad in vinyl siding and currently has an asphalt shingle roof. There are two brick chimneys. The exterior chimney rises at the rear of the house, and the interior chimney, which has a brick corbeled cap, rises above the side gable roof. A one story, seven-bay porch with square, wood posts extends across the majority of the facade.

The house is set on a small rise in a 1970s to 1980s subdivision. The property is dotted with mature trees with a large evergreen dominating the southwest corner of the lot. The north-facing house used to address Scaggsville Road to the south, but now is reached by the new subdivision road to the east.

EXTERIOR DESCRIPTION:

The south elevation, the facade of the house, consists of the original two-and-one-half-story, side gabled dwelling and the two flanking additions. At the first story of the dwelling, the primary entrance is marked with a single leaf paneled metal door with lights. A secondary entrance also exists on the eastern end of the facade. This door is also a single leaf, paneled metal door with lights. Both doors have metal surrounds. The remaining five bays of the house are pierced at the first story by windows with metal surrounds. There is one 2/2 window in the western addition; four non-original 6/6 metal sash windows in the original body of the house; and one ten-light metal casement window in the eastern addition. The five windows in the second story, one marking each bay of the original house and one in each of the two dormers to the east, are all non-original 6/6 metal sash windows. A one story, seven-bay porch with square, wood posts extends across the majority of the facade covering the original dwelling and the eastern addition. There are carved brackets ornamenting the posts and a low balustrade enclosing the porch. Stickwork in the front gable of the roof obscures an original pointed window.

The east elevation is part of the one and one half story addition. The one-and-one-half-story addition was further altered to make it

a full story at the northern end. The exterior wall is pierced on the first story with a ten-light, metal, casement window and a 6/6 metal sash window. A single 6/6 metal sash window pierces the second story. The windows all have metal surrounds.

The north elevation is pierced by three 6/6 metal sash windows and two 2/2 windows on the first story. The second story is pierced by two 4/4 metal sash windows; one 6/6 metal sash window; and one 2/2 window. The windows all have metal surrounds. A rear entrance to the house is marked with a double-leaf multi-light door of metal with a metal surround. The exterior brick chimney, laid in stretcher bond, is centered on the eastern addition of this elevation.

The west elevation is pierced by one 6/6 metal sash window and one 2/2 window on the first story. The second story is pierced by two 6/6 metal sash windows.

OUTBUILDINGS:

To the southeast of the main house is a small one-story, pre-fabricated frame shed with vertical board siding. It sits on a concrete foundation.

=====
Erected in 1900, the dwelling at 8489 Heatherwold Drive is an example of the Gothic Revival style. This style, which gained popularity because of its picturesque compatibility with the natural landscape, was used frequently in the construction of farmhouses and dwellings throughout rural communities across America at the turn of the twentieth century. The house at 8489 Heatherwold Drive provides an illustration of the simplified Gothic Revival style. This example is more ornate than many of the contemporary local Gothic Revival-style houses as evidenced by its carved brackets on the front porch and the elaborate stickwork found in the cross gable. Typical of the style, the prominent gable on the main facade is filled with an arched or pointed window.

The property on which 8489 Heatherwold Drive is sited was sold on September 3, 1900 to Joseph D. Harding, a prominent Scaggsville resident. Joseph Harding, who subdivided much of the land in this area, most likely built the Gothic Revival residence at that time. The Harding family continued to own the property until 1991 when it was sold to Steven J. Montgomery.

The house also reflects the encroachment of the Washington and Baltimore suburbs in this once rural area. Once set on a 110-acre property, the house now stands on a 20,850 square feet lot. Typical of this late twentieth century development, the original house remains intact, incorporated into the design of a modern subdivision. Although the house no longer retains its relationship with Scaggsville Road and sits on a fraction of its original land, its form distinguishes it from the surrounding modern Colonial Revival-style dwellings.
