7. Description

Survey No HO-746

Condition

excellent deteriorated
 good ruins
 fair altered

Prepare both a one paragraph summary and a comprehensive description of the resource and its various elements as it exists today.

The Hilton Farm is located off of Maryland route 94, north of its intersection with Annapolis Rock Road, right behind the Driver Farmhouse. The Hilton Farm is two stories tall, has an L-shaped design, and has a cross gabled dormer on the front (east) facade. The whole house is covered in clapboard, except for the three gables which have a diamond shingle pattern. The side (south) facade has a porch that runs the length of the house and is supported by wood posts set upon brick piers. This house, judging by its design and construction materials, dates from the late nineteenth century and is typical of rural Victorian architecture of the area. It has recently been added to the Maryland Department of Natural Resource's Resident-Curatorship Program and is being restored by Rick Myers and Nora O'Brien. Outbuildings on the property include a wood bank barn set upon a stone foundation, as well as a cinderblock storage shed.

Evaluation for:

National Register Maryland Register not evaluated

Prepare a one-paragraph summary statement of significance addressing applicable criteria, and a narrative discussion of the history of the resource and its context. (For compliance reports, discuss evaluation on a DOE Form - see manual).

The Hilton Farmhouse is a good example of rural Victorian architecture as defined by its L-shaped plan, as well as its combination of diamond shingles, clapboard and irregular roof lines. Previous research done on the Driver Farm indicates that this land was owned by Philemon Dorsey, a district surveyor, in the early part of the Nineteenth century. During the second and the third quarters of the Nineteenth century the property was owned by Basil Duvall, who later in 1883 sold 182-1/2 acres of his estate to Sarah, Charles, and Randolph Layton. They then sold the property in 1888 to James Driver, who constructed both the Driver and the Hilton Farmhouses. In 1915 this property was divided into two parcels of land, but still retained by members of the Driver family. The State of Maryland bought the land, in 1963, for the development of Patuxent River State Park. The Driver Farmhouse continued to be occupied, but the Hilton Farmhouse was left vacant for some time until it fell into disrepair.
