Based on the available information, the house at 22528 Crouch's Lane in the Piney Neck-Skinners Neck vicinity of Kent County does not meet any of the National Register Criteria for listing. The frame, two story, gable roofed house with two single story side wings probably dates to the 19th century. However it retains little sense of its original architectural character, due to numerous alterations, including additions, window replacement and vinyl siding. Therefore, it does not appear to merit inclusion in the Register under Criterion C for architectural significance. As a consequence of its diminished integrity, it may lack the ability to convey significance under any of the other Criteria. Moreover, it has no known association with significant events or people and thus is unlikely to be eligible under Criteria A or B. It is not located in any known historic district.
