DESCRIBE THE PRESENT AND ORIGINAL (if known) PHYSICAL APPEARANCE

The house is a 2-1/2 story red brick house with a rear brick wing. The house has a five bay main (east) facade with a one story porch across the three center bays. The doorway has a seven light transom and three light sidelights separated from the door by pilasters. Over the entire doorway, as well as the windows, are lintels with a chainlink motif. The porch is bracketed and has a dentil course below the boxed cornice. The main cornice consists of four courses of brick; the lowest has dentil-like projecting headers; the second is projecting stretchers; the third is projecting headers, and the top a row of stretchers.

The end walls have flush gable chimneys with three-course caps. The north end wall has a window on each floor centered under the stack. The south end wall is blank except for an attic window.

The rear wing, continuously bonded with the front block, has a chimney on the west end, a gallery at the second floor level on the south side, and a small porch on the north side. The ballusters for the gallery are cut in an elaborate pattern; the porch is bracketed and has pendants below the frieze. There is also a porch on the west end with shed roof.

The house sits on a stone foundation, although the porches have separate brick foundations. The roof is slate.
