Historic Resources Survey and Determination of Eligibility Report

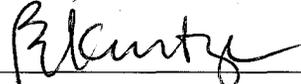

Description of Property and Eligibility Determination: *(Use continuation sheet if necessary and attach map and photo):*

The W. Lynch House was surveyed by Catherine Crawford of the Montgomery County Historic Preservation Commission in 1983. A determination of eligibility has not been made. The house, constructed circa 1887, is a 2-story, 3-bay, south-facing, wood-frame farmhouse set on a concrete foundation. A wide, open porch runs that length of the house. This has recently been restored to its original configuration as a 1980s description of the house indicates that it had been enclosed. The asphalt-shingle, side-gable roof has wide overhanging, boxed eaves and an entablature. The house has clapboard siding.

The building has recently received a large side addition that mimics the size, proportions, and material of the original house. Set back from the façade, it is attached to the rear ell. It is located immediately south of the beltway and is surrounded by suburban tract housing constructed circa 1980.

The house was listed in the Montgomery County Master Plan for Historic Preservation as an example of rural vernacular architecture. However, due to the compromise in its setting and association, as well as the recent construction of the large addition that diminishes the original farmhouse, it is not recommended for listing in the National Register.

MARYLAND HISTORICAL TRUST NR-ELIGIBILITY REVIEW FORM

Property Name: W. Lynch House

Inventory Number: M:35-18

Description of Property and Eligibility Determination: *(Use continuation sheet if necessary and attach map and photo):* (CONT'D)

The W. Lynch House, constructed circa 1887, is not eligible for the National Register of Historic Places. The property is not eligible under Criterion A, as research conducted indicates no association with any historic events or trends significant in the development of national, state or local history. Although the house was once associated with the agricultural history of Montgomery County, possibly qualifying it for listing in the National Register under Criterion A, changes to the house and property have resulted in a loss of integrity of setting, feeling, and association. Historic research indicates that the property has no association with persons who have made specific contributions to history, and therefore, it does not meet Criterion B. It is not eligible under Criterion C, as the house on the property is an undistinguished example of a common vernacular building type that lacks distinguishing features and has been extensively altered by a large modern addition. Finally, investigations have not been conducted to determine whether the property has the potential to yield information important in history or pre-history, therefore, National Register Criterion D can not be assessed at this time.

This is a small, two-story frame house, that sits in a grove of trees near the Capitol Beltway. The building faces west, and the main facade has three bays with a small, center gable and a central door. A one-story porch across the front has been screened in. Siding is clapboard, and windows are 6/6. The only other area house of similar proportions is the "Doctor Willett" house on Falls Rd. in nearby Potomac.

Prepare both a summary paragraph of significance and a general statement of history and support.

The Lynch house is significant as an example of rural vernacular architecture typical of that constructed in Montgomery County from the mid-nineteenth through the early twentieth centuries. The house was built by John William Lynch, the grandfather of the present owner, Charles Whelan, about 1887.¹ The house was built on three acres of land referred to as "Carderock" which John purchased in March of 1887 from J.D.W. and Sarah Moore for \$150.00.² John was born and raised on a nearby farm (situated on Brickyard and Falls Rd.). He purchased this land after he was married and worked here as a blacksmith in his shop located on the property. John also took in as boarders the school teachers who taught in the old schoolhouse adjacent to his property. Sometime around 1906, John added the rear section to the house.³

After John died in April of 1929, the house went to his wife, Roberta, to be passed on to their children following her death, as directed by John's will.⁴ When Roberta died in 1938, the house became the property of her children who later conveyed it to Charles Whelan, a grandchild of John and Roberta, in October of 1946.⁵ Charles remains the owner of the house which he now rents out.

¹The date given is based on the date that the property was purchased and the date that it first appears on the tax records with improvements.

BUILDER/ARCHITECT

STATEMENT OF SIGNIFICANCE

Appears to have been the house of W. Lynch on Hopkins' 1894 Atlas. The Lynch family had several small farms in the Great Falls area. Probably built after 1878, as it does not appear on that map. The 1885 "Friendship Schoolhouse", a one-room frame structure, was remodeled into a house and may still be standing just south of here on Persimmon Tree Rd.
