Is property located within a historic district? No Yes Name of District: _____

Is district listed? No Yes

Documentation on the property/district is presented in: I-495/I-95 Capital Beltway Corridor Transportation Improvement Study
Historic Resources Survey and Determination of Eligibility Report

Description of Property and Eligibility Determination: *(Use continuation sheet if necessary and attach map and photo):*

The Ferrero Property is located on the north side of Husted Driveway in the neighborhood of North Chevy Chase, Montgomery County. The house on the Ferrero Property was constructed in 1941 and pre-dates the surrounding development, which dates to the 1960s. Therefore, only the property at 3705 Husted Driveway is being evaluated at this time. The house is a typical 1-story Cape Cod-style building with a 5-bay front elevation, central entrance, and large brick central chimney. The house is of wood-frame construction with a concrete foundation, aluminum siding, and an asphalt shingle roof. The windows are wood 6/6 double-hung and the main entrance has a wood Colonial Revival door surround. A 1-story gable roof garage is attached to the house by an open arch breezeway.

The Ferrero Property is not eligible for the National Register of Historic Places due to a lack of historical and architectural significance. This property does not represent a historic event or trend that made a significant contribution to the development of the nation, state, or local community, and therefore is not eligible under Criterion A. This individual resource is ubiquitous to suburban areas and is not sufficient by itself to represent the theme of suburbanization. Historic research also indicates that the property has no association with persons who have made specific contributions to history, and therefore, it does not meet Criterion B. It is not eligible under Criterion C as it is an indistinctive example of a common building type found throughout suburban regions. Finally, investigations have not been conducted to determine whether the property has the potential to yield information important in history or pre-history, therefore, National Register Criterion D can not be assessed at this time.
