DESCRIBE THE PRESENT AND ORIGINAL (If known) PHYSICAL APPEARANCE

All ~~hallway~~ ^{Faiths} church stands virtually intact on the exterior, and completely original with the exception of the replacement of some moldings, the cornice boxing and the roof sheathing. The interior has been completely renovated (Plated to have been restored) ^{but retains original four square columns}. It is one of the finest Protestant churches remaining in St. Mary's with its only possible rival being nearby St. Andrews. It is highly possible that both buildings were designed by the same architect or builder.

The brick walls of the exterior are laid in Flemish bond. The entrance is at the N. end and is 3 bays in width: a centered door flanked by windows of 12/12 pane sash with flat arches. At the gable level ^{the arch of the} is a pedimented window with a fluted keystone. It is possible, even likely, that the window frame + sash replaces one of an earlier date.

Both side elevations (E + W) are 5 bays in length. The doors are centered, headed by ~~an~~ a ped. arch framing a fanlight. Ea door is flanked by ² arched windows.

On the interior is one large room containing 2 main aisles + 2 side aisles. All seems appear to have been recently constructed but in a style in keeping with the arch. of the church. The ceiling is wood in the center. Original fluted square columns remain.
