Description of Property and Eligibility Determination: *(Use continuation sheet if necessary and attach map and photo):*

This property has not been previously surveyed. The Cherry Hill Partnership Property is a banked 2-story, side-gable residence with rear ell, a steep-pitch roof, and deep returned eaves. The three-bay frame structure has a rear chimney, center front-gable containing a fixed diamond-shaped window, and a partial pent-roof porch with metal supports on the front elevation. There is a 1-story shed-roofed unit on the rear wing; solar panels are located on the rear slopes of the roof. The entire building is clad in horizontal metal siding, except the first-floor elevation of the front façade, which is clad with faux-ashlar cast concrete. Fenestration is new 1/1 vinyl sash. There is a single frame front-gable outbuilding covered with wood shingles in the rear.

Constructed ca. 1918, this dwelling is not eligible for the National Register of Historic Places. As an early 20th century traditional vernacular residence, it has been significantly altered by the addition of new materials. The property is not eligible under Criterion A, as research conducted indicates no association with any historic events or trends significant in the development of national, state, or local history. Historic research indicates the property has no association with persons who have made significant contributions to history, therefore it does not meet Criterion B. It is not eligible under Criterion C, because of the loss of architectural integrity. Investigations have not been conducted to determine whether the property has the potential to yield information important in history or pre-history, therefore National Register Criterion D cannot be assessed at this time.
