Prepare both a summary paragraph and a general description of the resource and its various elements as it exists today.

This is a low-lying one story building with an off center front doorway, flanked by two show windows and an automatic bank teller that is close to an after hour depository. The facade is made of cut limestone with various Art Deco motifs e.g., two incised piers located at the corners. The north elevation is brick with a 6 course common bond and metal copings at the roof line. At the rear is a one story addition with three bays and made of brick. Two of the openings are automobile oriented i.e., two overhead garage doors and in the center a steel frame pedestrian door.

Also on what is now a parking area located to the north of the site, in the late 1940s was the food establishment, the Federal Diner. In the mid 1950s it was known as Fred's Diner and had a successful following of Hyattsville residents.

Prepare both a summary paragraph of significance and a general statement of history and support.

By referring to the Sanborn Fire Insurance Maps of 1933 and 1939 it can deduced that this Art Deco building was constructed sometime during that interval. Built specifically for the Bergmann Laundry Company it now houses the Maryland National Bank.
