Description of Property and Eligibility Determination *(Use continuation sheet if necessary and attach map and photo)*

The resource is a false-front commercial building typical of those constructed nationally between 1900 and 1955. The exact date of construction is not known. The building is constructed of molded concrete block (panel face), and the stepped false front is constructed of common bond brick. The front gable roof is clad with standing seam metal. A three bay addition has been made to the west elevation of the building.

The property is not known to be associated with events that have made a significant contribution to the broad patterns of local, state, or national history (Criterion A). The property is not known to be associated with the lives of persons significant in the local, state, or national past (Criterion B). The property does not embody the distinctive characteristics of a type, period, or method of construction; represent the work of a master; or possess high artistic values (Criterion C). Finally, the property is not likely to yield information important in local, state, or nation prehistory or history (Criterion D).
