Criteria: A B C D Considerations: A B C D E F G None

Is property located within a historic district? No Yes Name of District: _____

Is district listed? No Yes

Documentation on the property/district is presented in: I-495/I-95 Capital Beltway Corridor Transportation Study Historic Resources Survey and Determination of Eligibility Report

Description of Property and Eligibility Determination: *(Use continuation sheet if necessary and attach map and photo):*

The Fielding Lane Subdivision is a planned suburban neighborhood located southeast of the Temple Hill Road overpass over the Capital Beltway in Temple Hills, Prince George's County. The subdivision is bounded by Temple Hill Road on the southwest, Church Way on the northwest, Fielding Lane on northeast, and Spring Terrace on the southeast. The Fielding Lane Subdivision consists of small lots and compact houses developed beginning in the mid-1930s. Construction continued through 1990. The neighborhood has no sidewalks and few large trees.

Housing Types: The subdivision contains five small, Cape Cod houses constructed between 1934 and 1945, one circa 1945 Minimal Traditional house, two houses from 1981 and 1962, and five Split-Level houses constructed in 1990 (see attached tax map).

Cape Cod: The five Cape Cod houses are 1 1/2-stories in height and 3 or 5 bays wide. Two are constructed of brick and three are constructed of wood frame. Example: 5056 Fielding Lane, owner: Richard Black (See Photo 1 of 6).

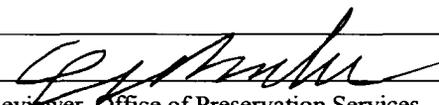

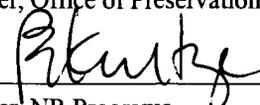

The 1962 house is a brick Ranch (See Photo 4 of 6), while the 1981 house is a brick Split-Level. The five 1990 Split-Level houses are constructed of wood-frame (See Photo 6 of 6).

**MARYLAND HISTORICAL TRUST
NR-ELIGIBILITY REVIEW FORM**

Property Name: Fielding Lane Subdivision

Inventory Number: PG: 76B-40

Description of Property and Eligibility Determination: *(Use continuation sheet if necessary and attach map and photo):* (CONT'D)

The Fielding Lane Subdivision is not eligible for the National Register of Historic Places. The subdivision is not eligible under Criterion A, as research conducted indicates no association with any historic events or trends significant in the development of local, state or national history. While the subdivision was developed during a period of heavy suburbanization in Prince George's County, it was not a large or significant subdivision, nor was it directly associated with the development of a particular employment center. The subdivision is not eligible under Criterion B because historic research indicates no association with persons who have made specific contributions to history. The subdivision is not eligible under Criterion C because it is not a significant example of its type. The Cape Cod houses and Minimal Traditional house are indistinguished examples of common building types found throughout suburban regions. In addition, the architectural integrity of the buildings has been compromised by alterations such as modern porches, vinyl siding and additions. As a subdivision, Fielding Lane lacks elements such as landscaping, and community amenities that would distinguish an outstanding planned suburban neighborhood. Investigations have not been conducted to determine whether the property has the potential to yield information important in history or pre-history, therefore eligibility under Criterion D cannot be assessed at this time.
