Description of Property and Eligibility Determination: *(Use continuation sheet if necessary and attach map and photo):*

The Conti Mortgage Corporation Property is located at the south end of Bauman Road, east of the Capital Beltway in the Westphalia vicinity of Prince George's County. The now-vacant property occupies a sloping, heavily wooded lot approached by a dirt lane. There are two houses on the property, one constructed circa 1930 (House 1) and one constructed circa 1960 (House 2)

House 1 is 1-story tall and 3-bays wide with a front-gable roof. It has a concrete-block foundation, asbestos siding and an asphalt-shingle roof. A concrete-block chimney is located in the center of the roof. The house has an enclosed, front-gable porch on its north elevation. An enclosed shed porch is located on the south elevation. There are a mix of 6/6 double-hung windows and 2/2 horizontally-divided windows. (See Photos 1 and 2 of 4)

House 2 is 1-story tall and 3-bays wide. It is constructed of concrete-block with an asphalt-shingle, side-gable roof. There are chimneys in the north gable end and the southeast corner. A slight overhang shelters the entry and a former picture window on the east elevation. The door has been removed. The original windows were 1/1 double-hung with brick sills. Most of them have been boarded over. The house has a large shed addition, also boarded over, on the south elevation. (See Photos 3 and 4 of 4)

NR-ELIGIBILITY REVIEW FORM**

Property Name: Conti Mortgage Corporation Property

Inventory Number: PG: 78-26

Description of Property and Eligibility Determination: *(Use continuation sheet if necessary and attach map and photo):* (CONT'D)

The Conti Mortgage Corporation Property is not eligible for the National Register of Historic Places. The property is not eligible under Criterion A, as research conducted indicates no association with any historic events or trends significant in the development of local, state or national history. Historic research indicates that the property has no association with persons who have made specific contributions to history, and therefore it does not meet Criterion B. The property is not eligible under Criterion C because it only contains indistinct examples of common types and because it lacks integrity. Simple, mid-20<sup>th</sup> century houses such as these exist by the thousands within the project area. Also, the replacement of exterior materials and the additions have compromised the property's integrity. Investigations have not been conducted to determine whether the property has the potential to yield information important to history or pre-history, therefore eligibility under Criterion D cannot be assessed at this time.
