Description of Property and Eligibility Determination *(Use continuation sheet if necessary and attach map and photo)*

Constructed in 1945, this structure was built in response to intensified suburbanization of the study area following the construction of MD 210 and related to the expansion of federal offices and military installations in the county. This front-gabled, one and a half story house has a shed roofed side porch supported by metal poles. The street façade is characterized by an asymmetrical composition of single and paired windows and a central main entrance. Two shed-roofed dormers flank the central ridge of the roof.

Research has not revealed any association between this structure and events that have made a significant contribution to the broad patterns of our history (Criterion A) or the lives of persons significant in the past (Criterion B). The building is not a good example of any style; nor is it distinguished; it does not represent the work of a master or display high artistic merit (Criterion C). Although archeology was not addressed in this study, there is no indication that the property is likely to yield information important in history or pre-history (Criterion D). Therefore, this property is not eligible for the National Register.
