Description of Property and Eligibility Determination *(Use continuation sheet if necessary and attach map and photo)*

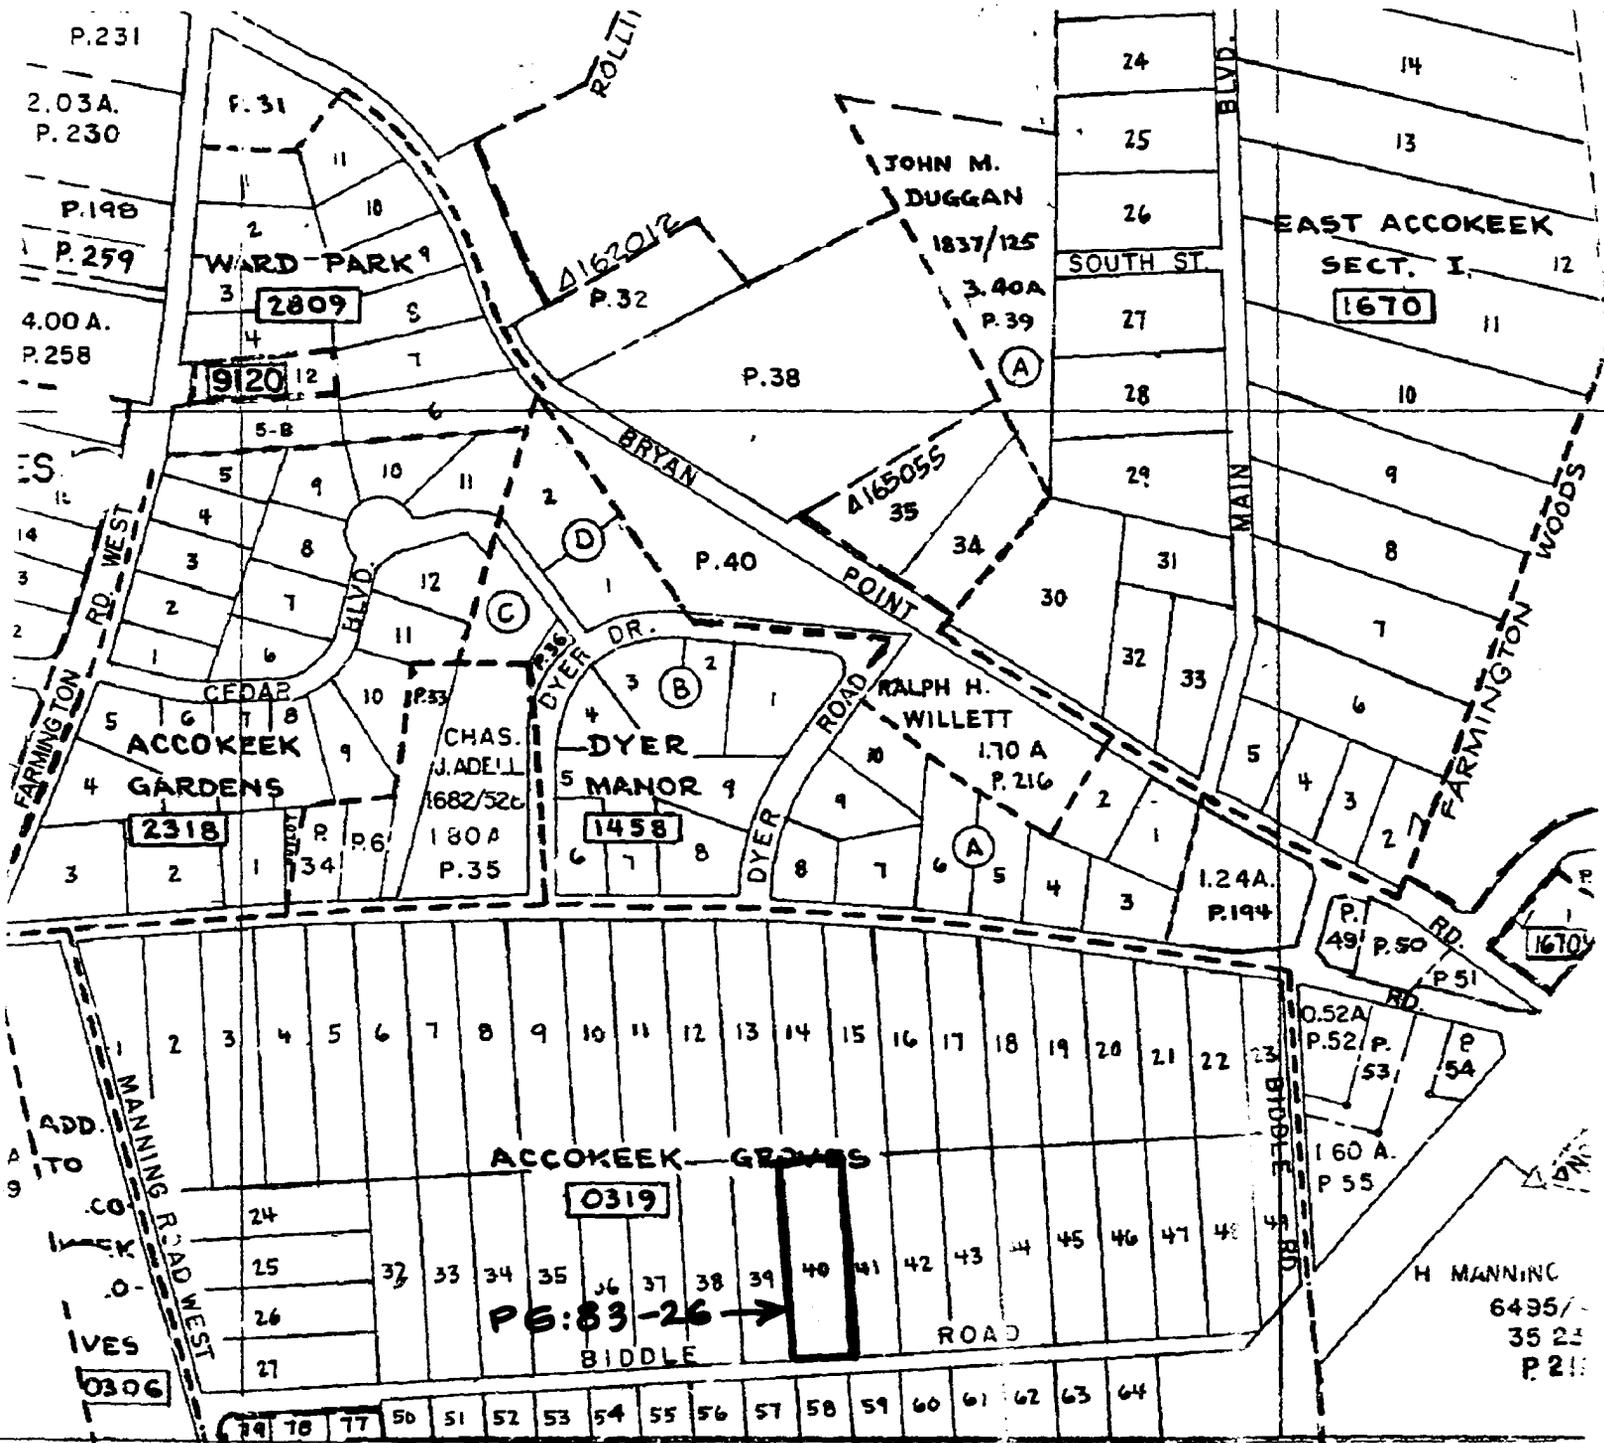

Constructed circa 1940, this structure was built in response to intensified suburbanization of the study area following the construction of MD 210 and related to the expansion of federal offices and military installations in the county. This front-gabled, single story house has a front-gabled porch supported by simple wood posts. The main entrance is centered between two small windows. Despite modifications including vinyl siding, parging, and replacement windows, paired side windows and the basic house form suggest that the structure could be considered a bungalow.

Research has not revealed any association between this structure and events that have made a significant contribution to the broad patterns of our history (Criterion A) or the lives of persons significant in the past (Criterion B). The building is not a good example of any style; nor is it distinguished; it does not represent the work of a master or display high artistic merit (Criterion C). Although archeology was not addressed in this study, there is no indication that the property is likely to yield information important in history or pre-history (Criterion D). Therefore, this property is not eligible for the National Register.
