Based on available information the structure at 20813 Severn Road, Ewell, MD., is not located within the boundaries of a state listed historic district and does not meet the criteria for individual listing on the Maryland Register. The original, late 19th century two bay, frame structure has been seriously compromised by a 20th century, one story addition at the front elevation and to one side. The structure lacks the architectural distinction to qualify for listing under Criterion C. The property is not known to have any associations with persons or events significant to our past, and thus does not qualify under Criteria A or B.
