

Cedar Point Shopping Center
SM-704
21899 Three Notch Road (MD 235)
Lexington Park vicinity
Circa 1948
Private

The Cedar Point Shopping Center encompasses several different buildings. The center portion of the building is a two-story gable-roof structure that may have been a residence later converted to commercial use with various additions gradually appended to the north, south and west sides of the building. The center portion of the building appears to date from the 1940s, the southern addition from the 1950s and the northern addition from the 1960s.

The commercial complex was probably established in response to the tremendous population growth following the establishment of the Patuxent Naval Air Station (NAS) in 1942. Prior to the formation of NAS, the county's economy was primarily based upon agriculture (tobacco) and fishing, and very little modern development was evident in this portion of the state. In 1940, the population of the Bay district was 1,287; by 1950 it had increased nearly five-fold to 10,575. With this tremendous influx of workers in so short a period, residences and commercial buildings were constructed near the base, and later spread to outlying areas along Three Notch Road (MD 235).

7. Description

Inventory No. SM-704

Condition

<input type="checkbox"/> excellent	<input type="checkbox"/> deteriorated
<input checked="" type="checkbox"/> good	<input type="checkbox"/> ruins
<input type="checkbox"/> fair	<input checked="" type="checkbox"/> altered

Prepare both a one paragraph summary and a comprehensive description of the resource and its various elements as it exists today.

The building at 21899 Three Notch Road (MD 235) is located approximately 50 feet west of the road in an area characterized by primarily commercial uses. A paved parking lot surrounds the building and two concrete block sheds are situated north and west of the building.

The F-shaped building is a combination of several different structures, including a two-story stucco-covered center portion, a two-story concrete block addition appended to the north end and a one-story concrete block wing attached to the south end. The east elevation of the entire building is faced with brick. An asphalt shingle gable roof covers the central portion of the building while the north and south concrete block wings have flat roofs. The west side of the center portion of the building has several concrete block additions, including a shed-roof ell at the north end and a rectangular ell with another concrete block addition with a clipped southwest corner at the south end. A brick exterior chimney rises along the west side of the building. Windows throughout the building consist of modern one-over-one sash, large plate glass fixed sash storefront windows, metal casements, and hopper or awning windows. Some of the window openings have been covered with wood or enclosed.

The east elevation of the building contains seven storefronts with a total of thirteen bays. The southern end includes a large opening that appears to have been a garage door but is now enclosed. The second story of the center portion contains three bays: a single one-over-one window in the center bay flanked on either side by a set of paired one-over-windows.

A gable-roof central entry with fluted pilasters and brick stoop is located in the west, or main, elevation. A tripartite picture window with a center fixed light flanked by four-over-four double-hung sash is located north of the entry; a single six-over-six double-hung sash is located south of the entry. The south elevation of the main block contains three six-over-six double-hung sash in the first story, and a small window is located in the gable. The east elevation of the main block contains a single six-over-six double-hung sash window on either side of the flat-roof addition. The north elevation of the main block contains two pairs of six-over-six double-hung sash in the first story; a hipped-roof bay contains the northeastern set of windows. A small window is located in the gable.

Specific dates Circa 1948 **Builder/Architect** Unknown

Evaluation for:

National Register Maryland Register not evaluated

Prepare a one-paragraph summary statement of significance addressing applicable criteria, followed by a narrative discussion of the history of the resource and its context. (For compliance reports, complete evaluation on a DOE Form - see manual).

The Cedar Point Shopping Center encompasses several different buildings. The center portion of the building is a two-story gable-roof structure that may have been a residence later converted to commercial use with various additions gradually appended to the north, south and west sides of the building. The center portion of the building appears to date from the 1940s, the southern addition from the 1950s and the northern addition from the 1960s.

The commercial complex was probably established in response to the tremendous population growth following the establishment of the Patuxent Naval Air Station (NAS) in 1942. Prior to the formation of NAS, the county's economy was primarily based upon agriculture (tobacco) and fishing, and very little modern development was evident in this portion of the state. In 1940, the population of the Bay district was 1,287; by 1950 it had increased nearly five-fold to 10,575 (Hammett 1991:491). With this tremendous influx of workers in so short a period, residences and commercial buildings were constructed near the base, and later spread to outlying areas along Three Notch Road (MD 235).

It is unlikely that historic or prehistoric archeological resources are preserved on this property. The extensive disturbance typically associated with construction during the last 50 years is likely to have displaced any archeological resources that may have been on this property. Similarly, commercial and residential development in the vicinity make the survival of archeological resources on adjacent properties unlikely.

Historical documentation does not indicate that this resource is associated with Criterion A, broad patterns of history or a significant event or Criterion B, an important person who contributed to local or state history. The property does not embody distinctive characteristics of a type, period, or method of construction nor does it represent the work of a master or possess high artistic value; therefore, Criterion C, architecture, does not apply. Lastly, the property is unlikely to yield information which contributes to our understanding of human history. As a result of recent modern development in the immediate area, the property lacks integrity of association, feeling, location, and setting. Major alterations and additions have compromised the building's integrity of design, materials, and workmanship.
