

Executive Apartments Building

SM-706

East side Three Notch Rd. (MD 235) north of Great Mills Rd. (MD 246)

Lexington Park vicinity

Circa 1920

Private

The Executive Apartments Building was originally a residence, however, major alterations to the exterior have virtually obscured any original details that may provide information about its original condition and size. Further, the surrounding landscape has been significantly transformed as a result of consistent commercial development over the past 50 years and thus little evidence remains about its original use and function. The former dwelling has recently been renovated to serve as offices and apartments. The size and massing of the building indicate that it may have been built in the early twentieth century.

Condition

<input type="checkbox"/> excellent	<input type="checkbox"/> deteriorated
<input checked="" type="checkbox"/> good	<input type="checkbox"/> ruins
<input type="checkbox"/> fair	<input checked="" type="checkbox"/> altered

Prepare both a one paragraph summary and a comprehensive description of the resource and its various elements as it exists today.

The former residence (currently offices and apartments) on the west side of Three Notch Road (MD 235) north of Great Mills Road (MD 246) is located approximately 15 feet west of the road in an area characterized by commercial uses. house. A paved parking is located at the north and south ends of the property.

The two-story frame building clad in vinyl siding has a brick covered foundation and water table. The house has an asphalt shingle gable roof with a cross gable over the central bay of the east, or main, elevation. A two-story gable-roof ell extends from the center of the west side of the building and a covered flight of stairs is located at the northwest corner of the building. A brick patio surrounded by seven brick piers/posts extends around the south and southwest sides of the building. Windows throughout the house consist primarily of modern one-over-one double-hung sash with modern crown molding lintels and decorative shutters.

The symmetrical east, or main, elevation contains five bays in both stories. The first story includes a central entry of double glass doors flanked on either side by two single one-over-one windows. The second story contains a modern quatrefoil window in the center bay flanked on either side by two one-over-one windows. A cross gable roof with partial returns tops the center bay. The first story of the south elevation contains a door in the east end and a one-over-one window in the west end; a single one-over-one window is located in the east end of the second story. The first story of the west elevation includes a single casement window and door in the south end, a door in the central bay and a door in the north end below the stairs. The second story includes a one-over-one window in the south end, a double casement window in the center and a one-over-one window in the north end. A one-over-one window with six-light plastic muntins and a fanlight is located in the second story of the center addition.

8. Significance

Specific dates Circa 1920 **Builder/Architect** Unknown

Evaluation for:

National Register Maryland Register not evaluated

Prepare a one-paragraph summary statement of significance addressing applicable criteria, followed by a narrative discussion of the history of the resource and its context. (For compliance reports, complete evaluation on a DOE Form - see manual).

The Executive Apartments Building was originally a residence, however, major alterations to the exterior have virtually obscured any original details that may provide information about its original condition and size. Further, the surrounding landscape has been significantly transformed as a result of consistent commercial development over the past 50 years and thus little evidence remains about its original use and function. The former dwelling has recently been renovated to serve as offices and apartments. The size and massing of the building indicate that it may have been built in the early twentieth century.

It is unlikely that historic or prehistoric archeological resources are preserved on this property. The extensive disturbance typically associated with construction during the last 50 years is likely to have displaced any archeological resources that may have been on this property. Similarly, commercial and residential development in the vicinity make the survival of archeological resources on adjacent properties unlikely.

Historical documentation does not indicate that this resource is associated with Criterion A, broad patterns of history or a significant event or Criterion B, an important person who contributed to local or state history. The property does not embody distinctive characteristics of a type, period, or method of construction nor does it represent the work of a master or possess high artistic value; therefore, Criterion C, architecture, does not apply. Lastly, the property is unlikely to yield information which contributes to our understanding of human history. As a result of recent modern development in the immediate area, the property lacks integrity of association, feeling, location, and setting. Major alterations have compromised the building's integrity of design, materials, and workmanship.
