Description of Property and Eligibility Determination: (Use continuation sheet if necessary and attach map and photo)

This property is a farmstead located north of Matthewstown Road and east of Gannon Road. The farmstead occupies an area of 100.74 acres and there are five buildings at this farmstead: a house, two barns, a garage/equipment shed, and a storage (or other) building. Access to the farmstead is via an unsurfaced drive leading from Matthewstown Road.

The Harrison Farm #2 is a farmstead developed during the twentieth century. Historic maps published in the nineteenth century (1858 and 1877) do not show any development at the property. The house is a common frame vernacular type that has been altered through the replacement of original windows and the addition of asbestos shingle siding. Although there are intact agricultural outbuildings, the barn and other buildings are in deteriorated condition. The farmstead does, however, appear to retain its original plan. The property appears to be not eligible individually for listing in the National Register of Historic Places, however it does appear to be a contributing element (because of its plan and continued function as an active farm) to the proposed Goldsborough Farms Rural Historic Landscape district.

T-1140. Harrison Farm #2

This property is a farmstead located north of Matthewstown Road and east of Gannon Road. The farmstead occupies an area of 100.74 acres and there are five buildings at this farmstead: a house, two barns, a garage/equipment shed, and a storage (or other) building. Access to the farmstead is via an unsurfaced drive leading from Matthewstown Road. The house is a 2½-story frame vernacular building constructed on a continuous brick foundation in a T-plan. The house has a wrap-around porch supported by turned wood posts and is partially enclosed; a metal hand pump is mounted on the porch's east side. There is a shed roof concrete block addition to the rear (north side). The house has two brick chimneys: one exterior and one interior. Characterized by irregular fenestration on all elevations, windows in the house include six-light casement windows and metal double hung sash (1/1 lights) windows. The house is clad by asbestos shingles and the roof is clad by composition shingles.

The agricultural buildings are located north and east of the house and are separated from it by an unsurfaced drive. The barns are wood frame buildings. The southernmost barn is a gable end entry barn with a hay hood and a side (east) shed roof addition. The barn roof is clad by standing seam metal. The second barn is also a gable end entry barn with a standing seam metal roof and it is located immediately north of the first barn. There is an open, side gabled garage/shed located north of the house and west of the barns. The shed is clad by vertical plank siding and its roof is clad by wood planks. On the eastern margin of the agricultural buildings, there is a concrete block (modern) storage building.

7. Description

Inventory No. T-1140

Condition

excellent deteriorated
 good ruins
 fair altered

Prepare both a one paragraph summary and a comprehensive description of the resource and its various elements as it exists today.

This property is a farmstead located north of Matthewstown Road and east of Gannon Road. The farmstead occupies an area of 100.74 acres and there are five buildings at this farmstead: a house, two barns, a garage/equipment shed, and a storage (or other) building. Access to the farmstead is via an unsurfaced drive leading from Matthewstown Road.

The house is a 2½-story frame vernacular building constructed on a continuous brick foundation in a T-plan. The house has a wrap-around porch supported by turned wood posts and is partially enclosed; a metal hand pump is mounted on the porch's east side. There is a shed roof concrete block addition to the rear (north side). The house has two brick chimneys: one exterior and one interior. Characterized by irregular fenestration on all elevations, windows in the house include six-light casement windows and metal double hung sash (1/1 lights) windows. The house is clad by asbestos shingles and the roof is clad by composition shingles.

The agricultural buildings are located north and east of the house and are separated from it by an unsurfaced drive. The barns are wood frame buildings. The southernmost barn is a gable end entry barn with a hay hood and a side (east) shed roof addition. The barn roof is clad by standing seam metal. The second barn is also a gable end entry barn with a standing seam metal roof and it is located immediately north of the first barn.

There is an open, side gabled garage/shed located north of the house and west of the barns. The shed is clad by vertical plank siding and its roof is clad by wood planks. On the eastern margin of the agricultural buildings, there is a concrete block (modern) storage building.

Evaluation for:

National Register

Maryland Register

not evaluated

Prepare a one-paragraph summary statement of significance addressing applicable criteria, followed by a narrative discussion of the history of the resource and its context. (For compliance projects, complete evaluation on a DOE Form – see manual.)

The Harrison Farm #2 is a farmstead developed during the twentieth century. Historic maps published in the nineteenth century (1858 and 1877) do not show any development at the property. The house is a common frame vernacular type that has been altered through the replacement of original windows and the addition of asbestos shingle siding. Although there are intact agricultural outbuildings, the barn and other buildings are in deteriorated condition. The farmstead does, however, appear to retain its original plan. The property appears to be not eligible individually for listing in the National Register of Historic Places, however it does appear to be a contributing element (because of its plan and continued function as an active farm) to the proposed Goldsborough Farms Rural Historic Landscape district.
