DESCRIBE THE PRESENT AND ORIGINAL (if known) PHYSICAL APPEARANCE

The oldest portion of this house is a three bay, two and one-half story wood frame structure with an addition on each side. The west addition is very recent, 30's or 40's. The east addition could be as old as the main body of the house or could have been built anytime between 1850-1900. The building is set about three feet off the ground on a masonry foundation and is covered with clapboards, about 4 inches to the weather. The windows on the south side of the house have 6/6 panes on the second floor, but on the first floor, on both sides, the windows are 4/4 with the bottom two panes being quite large, extend access to the north and south porches. The shutters, it appears, where at one time integral with the window jamb but are now nailed in place.

The house has a widow's walk cupola at the top and an intrigate oculus in the eave of each peak in the roof (north and south).

STATEMENT OF SIGNIFICANCE			
<p>Belmont is one of the important Ante-Bellum houses of Talbot County, of which few seem to have remained. It is similar to, though plainer than, Ridgeton Farm, Dorchester County.</p> <p>Belmont is one of the significant dwellings of the mid-19th century which were constructed by William Hughlett of Jamaica Point who was one of the most prosperous merchants and ship builders of Talbot in the second and third quarters of the 19th century. He also built the Retreat, Home and Chancellor's Point where he died.</p>
