

T-808  
Daniel Moaney House  
Copperville  
Private

c. 1910

The Daniel Moaney house is a plain two-story, three-bay frame dwelling that stands at the north end of the village of Copperville next to the old Copperville school. Built around 1910, the two-story house has been covered with a layer of asbestos shingles. Attached to the back of the main block is a typical two-story, one-room plan wing. The plain nature of the frame house is not unusual to black communities of Talbot County.

Prepare both a summary paragraph and a general description of the resource and its various elements as it exists today.

The Daniel Moaney house is located on the west side of the Copperville Road next to the old Copperville school in Copperville, Talbot County, Maryland. The two-story, three-bay frame house faces southeast with the gable roof oriented on a northeast/southwest axis.

Built around 1910, the two-story, asbestos shingled frame dwelling is supported by a low brick foundation, and the house is covered by a medium pitched asphalt shingle roof. The extended eaves are finished with sloped soffits. A two-story, one-room plan kitchen wing extends to the rear.

The southeast (main) elevation is a symmetrical facade with an enclosed shed roofed porch sheltering the first floor. Within the porch a partially glazed front door is flanked by sash windows. The second floor is pierced by two evenly spaced six-over-six sash windows.

An exterior end brick stack rises against the northeast gable end, and six-over-six sash windows light the first and second floors. The southwest gable end is marked by sash windows and a slightly extended eave.

Extending to the back of the house is a two-story, one-room plan kitchen wing enlarged to the south by a shed porch. An exterior block stack rises against the northwest gable end.

The interior was not seen.
